

The tables below provide an explanation of the notation used in the options assessment matrix.

Major Positive Impact	The policy strongly supports the achievement of the SA Objective.	++
Positive Impact	The policy partially supports the achievement of the SA Objective.	+
Neutral/ No Impact	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	0
Positive and negative outcomes	The policy has a combination of both positive and negative contributions to the achievement of the SA Objective, e.g. a short term negative impact but a longer term positive impact.	+/-
Uncertain outcome	It is not possible to determine the nature of the impact as there may be too many external factors that would influence the appraisal or the impact may depend heavily upon implementation at the local level. More information is required to assess the impacts.	?
Negative Impact	The policy partially detracts from the achievement of the SA Objective.	-
Major Negative Impact	The policy strongly detracts from the achievement of the SA Objective.	--

L-T	Effects likely to arise in 10-25 years of Local Plan implementation
M-T	Effects likely to arise in 5-10 years of Local Plan implementation
S-T	Effects likely to arise in 0-5 years of Local Plan implementation
D	Direct effects.
I	Indirect effects.
R	Effects are reversible
IR	Effects are irreversible
H/M/L	High, medium or low certainty of prediction
C	Potential to have cumulative effect with other proposals or plans on this objective

	SP1 Business, Economy and Employment		BEE.1 Business & Employment hubs		BEE.2 Strategic Industrial Land		BEE.3 Locally Significant Industrial Sites and Other Industrial Locations	
SA Objectives	Impact	Comment	Impact	Comment	Impact	Comment	Impact	Comment
To reduce crime, disorder and fear of crime	+ S, M –LT I R M C	The increased employment opportunities will lead to improved living standard, with a positive effect on deprivation rates and reduction of crime.	+ S, M –LT I R M C	Same as SP1.	+ S, M –LT I R M C	Same as SP1.	+ S, M –LT I R M C	Same as SP1.
To improve levels of educational attainment for all age groups and all sectors of society	+ S, M –LT D/I I R M	The percentage of population with no qualifications will further decrease from its current level through increased opportunities of employment training particularly within cultural and creative industries.	+ S, M –LT D/I I R M	There are 11 employment hubs identified in the Local Plan including iCity (Hackney Wick) Strategic Industrial Location which comprises employment uses with more specific focus on further and higher education, research and development. The policy will contribute to the achievement of the SA objective through increased employment opportunities and training,	+ S, M –LT D/I I R M	Same as BEE.1.	0 S, M –LT D I R M C	This policy is related primarily to the provision of premises suitable for Small and Medium sized businesses and there is no clear relationship with the SA objective.
To improve physical and mental health and wellbeing for all and reduce health inequalities	+ S, M –LT I R M	The increased employment opportunities through the provision of a range of sizes and types of employment and business floorspace will indirectly help improve overall health deprivation.	+ S, M –LT I R M C	Same as SP1.	+ S, M –LT I R M C	Same as SP1.	+ S, M –LT I R M C	Same as SP1.
To ensure housing provision meets local needs	0 S, M –LT D/I R M C	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible. The business and employment hubs will be predominantly non-residential in character.	0 S, M –LT D I M C	Same as SP1.	0 S, M –LT I R M C	Same as SP1.	0 S, M –LT D R M	Same as SP1.
To improve sustainable access to jobs, basic goods, services and amenities for all groups	+ M –LT D R M C	The area is already well served and well linked both internally and externally with regards to transportation services. The provision of international rail services for Stratford and, in the long term, the provision of a High Speed 1 to High Speed 2 rail link, will have further beneficial effect on improved connectivity at national and international business level. Sustainable transport choices to access local services and amenities include cycling and walking. Cross cutting with strategic policy SP7 Transport and Connectivity.	+ M –LT D R M C	Cycling network of routes already exists in the local plan area. Sustainable access to the business and employment hubs will be further improved through provision of cycle car parking, safe routes for walking and cycling, and workplace cycling facilities. Cross cutting with strategic policy SP7 Transport and Connectivity and Policy T4.	+ M –LT D R M C	Cycling network of routes already exists in the local plan area. Sustainable access to the business and employment hubs will be further improved through provision of cycle car parking, safe routes for walking and cycling, and workplace cycling facilities. Cross cutting with strategic policy SP7 Transport and Connectivity and Policy T4.	+ S, M –LT D R M	Cycling network of routes already exists in the local plan area. Sustainable access to the business and employment hubs will be further improved through provision of cycle car parking, safe routes for walking and cycling, and workplace cycling facilities, Cross cutting with strategic policy SP7 Transport and Connectivity and Policy T4.
To reduce poverty and social exclusion whilst	+ S, M –LT D/I	Social inclusiveness and equality will be ensured through the provision of higher education facilities. The unemployment	+ S, M –LT D/I	Same as SP1.	+ S, M –LT D/I	Same as SP1.	+ S, M –LT D	Same as SP1.

	SP1 Business, Economy and Employment		BEE.1 Business & Employment hubs		BEE.2 Strategic Industrial Land		BEE.3 Locally Significant Industrial Sites and Other Industrial Locations

	C	existing Conservation Areas and Listed Buildings. <i>Proposal for new buildings for commercial/industrial use must ensure that there are no adverse effects on heritage assets.</i>	C		C		C	
To protect and enhance the quality of water features and resources and reduce the risk of flooding	O M –LT D/I R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O M –LT D/I R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O M –LT D/I R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.
To limit and adapt to climate change	O M –LT D/I R L	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O M –LT D/I R L	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O M –LT I R L	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.
To protect and improve air quality	- S, M –LT I R M C	Air quality pollution currently comes from vehicle emissions, central heating systems and construction sites. The increase of business growth opportunities may lead to increase of traffic in the area. <i>Sustainable modes of transport must be promoted to mitigate the effect.</i>	- S, M –LT I R M C	Same as SP1.	- S I R M C	Same as SP1.	- S I R M C	Same as SP1.
To ensure sustainable use of natural resources	- S, M –LT I R M C	Business growth will require the provision of new office and employment floorspace. Cumulatively, the delivery of new buildings will result in extensive use of natural resources both during construction and operation. <i>Reuse/recycle of materials must be sought where possible during construction of any new business buildings. Use of sustainable construction methods should be ensured in order to reduce energy use and water use.</i>	O S, M –LT D I R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D I R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.

	BEE.4 Employment uses in other locations		BEE.5 Mixed use locations		BEE.6 Managed and affordable workspace		BEE.7 Town, Neighbourhood and Local Centres	
SA Objectives	Impact	Comment	Impact	Comment	Impact	Comment	Impact	Comment
To reduce crime, disorder and fear of crime	O S, M –LT D R M C	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	+/- M –LT D/I R M	Although some of the boroughs have recently recorded relatively low crime levels, a significant increase in population is expected during the plan period which may increase crime figures within the mixed use locations. <i>New developments should incorporate safety and security by design standards.</i>	+/- M –LT D/I R M	Although some of the boroughs have recently recorded relatively low crime levels, a significant increase in population is expected during the plan period which may increase crime figures. <i>New developments should incorporate safety and security by design standards.</i>	+/- M –LT D/I R M	Although some of the boroughs have recently recorded relatively low crime levels, a significant increase in population is expected during the plan period which may increase crime figures in the vicinity of the new retail centres. <i>New developments should incorporate safety and security by design standards.</i>
To improve levels of educational attainment for all age groups and all sectors of society	O S, M –LT D R M C	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M C	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M C	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M C	The focus of the town and local centres will be on retail, commercial and leisure uses and these will not affect significantly the levels of educational attainment as these are service oriented business uses.
To improve physical and mental health and wellbeing for all and reduce health inequalities	O S, M –LT D R M C	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M C	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M C	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M C	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.
To ensure housing provision meets local needs	O S, M –LT D R M C	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	+ M –LT D R M C	Mixed use developments will contribute to the achievement of the SA objective through the provision of residential units to meet housing demands.	O S, M –LT D R M C	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	+ S, M –LT D R M	Residential developments will be acceptable in all centres in cases when it does not prejudice the identified function of that centre. Therefore it is considered that the policy will contribute to the achievement of the SA objective.
To improve sustainable access to jobs, basic goods, services and amenities for all groups	O S, M –LT D R M C	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	+ M –LT D R M C	Sustainable access will be ensured through already existing public transport and cycling network at local level. <i>Where new mixed use locations are identified, measures to encourage walking and pedestrian access must be sought.</i>	O S, M –LT D R M C	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M	Town, Neighbourhood and Local Centres are already well served by the public transport network. Therefore it is considered that there will be no significant change from the baseline and the effect from the implementation of the policy will be negligible.
To reduce poverty and social exclusion whilst promoting social inclusiveness and equality	O S, M –LT D R M C	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M C	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	+ M –LT I R M C	The provision of managed and affordable workplace will support primarily small and new businesses which will have indirect beneficial effect on social inclusion and equality.	O S, M –LT D R M C	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.
To encourage sustainable economic growth,	+ S, M –LT D	Same as SP1, with predominantly local and regional significance.	+ S, M –LT D	Same as SP1, with predominantly local and regional significance.	+ S, M –LT D	Same as SP1, with predominantly local and regional significance.	+ S, M –LT D	Same as SP1, with predominantly local and regional significance.

				new development which can cope with future climate change issues and enable new development without increasing flood risk on- or off-site.						
To protect and improve air quality	+/- M –LT D/I R M C	The principal threat to clean air in London comes from road traffic. Other sources include the burning of fossil fuels to provide energy needs and emissions from industry and dust from construction works. Ultimately Policy H1 would guide the development of around 1,400 new homes per year; this would lead to an influx of private cars which may lead to congestion issues and decrease local air quality over the long term. Sustainable modes of transport (i.e. walking) to access local services / facilities may contribute to improving local air quality through reducing the need to travel by private car (over the long term).	+/- M –LT D/I R M C	Same as SP2.	+/- S D/I R M C	Ensuring new development is well connected to the wider area via public transport, walking and cycling would offer air quality benefits over the medium to long- term as people would be more inclined to leave their cars at home.	+/- S D/I R M C	Same as SP2.	0 S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.
To ensure sustainable use of natural resources	+/- S, M –LT D I R M	The expected increase in housing and residents will result in extensive use of resources during construction and in the long term during operation of the new developments. However, the policy is clear that in order to make the most efficient use of land the London Plan density matrix will be used. The SA objective will be achieved through ensuring that long term vacant properties are reused. For these reasons the effects will be both positive and negative in the long term. <i>Reuse/recycle of materials must be sought where possible.</i>	+/- S, M –LT D I R M	Same as SP2.	0 S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	0 S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	0 S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.

SA Objectives	Impact	Comment	Impact	Comment	Impact	Comment	Impact	Comment	Impact	Comment
To limit and adapt to climate change	+/- M –LT D/I R M	The LLDC Local Plan envisages a significant growth in new residents and business activities as well as a significant increase in traffic associated with the growth of neighbourhood areas. Greenhouse gas emissions may also increase as a result of increased energy demand and traffic generation during construction of new infrastructure facilities. <i>Renewable energy infrastructure should be promoted where appropriate to mitigate the effect of increased energy demand related to the planned level of growth.</i>	+/- M –LT D/I R M	The LLDC area is largely located in Flood Zone 2 and 3 and is prone to flooding. That should be taken into account during the infrastructure design process to reduce the risk of flooding of any new community facilities. <i>All new community facilities should adopt SuDS to reduce runoff, alleviate pressure from the sewer network, and further reduce flood risk.</i>	+/- M –LT D/I R M	Energy demand will increase with the extensive growth of residential and business units in the LLDC area. <i>Renewable energy infrastructure should be promoted where appropriate to mitigate the effect of increased energy demand related to the planned level of growth.</i>	+/- S, M –LT D R M	The policy will contribute to the achievement of the SA objective through the support of improved sewerage infrastructure and initiatives to reduce water demand in new developments. <i>All new developments should adopt SuDS to reduce runoff, alleviate pressure from the sewer network, and further reduce flood risk.</i>	+/- M –LT D/I R M	The main focus of the policy is on ensuring that there is no loss of any waste management facilities and does not include measures to reduce waste sent to landfill. Currently a high percentage of the waste in the area goes to landfill and landfill waste is a large source of anthropogenic methane . <i>Mitigation measures are required to encourage the reuse, recycle or compost of materials.</i>
To protect and improve air quality	+/- S, M –LT R M C	In the short term air quality can be affected from dust during construction of any new infrastructure facilities. <i>The policy would benefit if it includes requirements for any proposals to submit to the LLDC and to implement Construction Environmental Management Plans (CEMPs) to control dust.</i>	+/- S, M –LT R M C	Same as SP5.	0 S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	0 S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	0 S, M –LT R M C	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.
To ensure sustainable use of natural resources	+/- S, M –LT D R M	Major infrastructure projects will require extensive use of natural resources during construction and operation. <i>Reuse/recycle of materials must be sought where possible during construction of any additional infrastructure facilities.</i> <i>Use of sustainable construction methods should be ensured in order to reduce energy use and water use.</i>	+/- S, M –LT D R M	Same as SP5.	+/- S, M –LT D R M	The planned level of growth suggests that new energy infrastructure may be required as part of any major developments in the area. The policy partially supports the achievement of the SA objective through the support of renewable energy infrastructure. <i>Renewable energy infrastructure should be promoted where appropriate to mitigate the effect of increased energy demand related to the planned level of growth.</i>	+ S, M –LT D R M	Sustainable use of water will be encouraged by introducing additional sustainable water resources, including the use of rainwater harvesting and use of dual potable and grey water recycling systems.	- S, M –LT D I R M	The main focus of the policy is on ensuring that there is no loss of any waste management facilities and does not include measures to reduce waste sent to landfill. Currently a high percentage of the waste in the area goes to landfill and landfill waste is a large source of anthropogenic methane . <i>Mitigation measures are required to encourage the reuse, recycle or compost of materials.</i>

SA Objectives	Impact	Comment	Impact	Comment	Impact	Comment	Impact	Comment	Impact	Comment
development		However, businesses also consider other factors such as accessibility, the availability of human and natural resources etc. In addition, there are arguments posed that protection of biodiversity assets could make economic development more difficult. Therefore the effects from the policy are assessed to be neutral.						business activity but the level of certainty is considered to be low.		
To increase employment opportunities for all residents in the local area	O S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.
To protect and enhance biodiversity	++ S, M –LT D R M	Policy SP6 is very clear in its focus upon protecting the area's biodiversity assets, particularly the Green Grid and Blue Ribbon links which are important for wildlife. In addition, protecting land, air and water quality has indirect benefits for biodiversity resources as deposition of pollutants can have adverse effects on ecosystem health.	+ S, M –LT D R M	Policy NE1 clearly aims to ensure protected habitats and species will not be adversely affected by any new developments.	O S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective as the focus is primarily on the access to open spaces and waterways.	+/- S, M –LT D R M	Part of the policy is the objective to protect and enhance the role of the waterways for biodiversity, drainage and management risk. Ching Brook's current ecological quality is „Poor“ and the 2015 predicted ecological quality is also „Poor“. The Environment Agency's interactive mapping states that the watercourse's current chemical quality is a „Fail“ and also predicted to „Fail“ in 2015. <i>It would be beneficial if the policy is more explicit about the main use of the waterways as that will determine the potential effects on biodiversity throughout the plan period.</i>	+ S, M –LT D R M	The policy will have direct beneficial effect on water quality by reducing surface run-off through implementing appropriate sustainable drainage measures.
To protect and enhance townscape character and quality (including open space, public realm improvements and urban design)	+ S, M –LT D R M C	The All London Green Grid Policy aims to create a network of interlinked, multifunctional and high quality open spaces connecting town centres, public transport hubs, major employment and residential areas with the parks and open spaces, the Thames and the green urban fringe. Therefore, the SA objective will be achieved through creating an	+ S, M –LT D R M C	Same as SP6.	+ S, M –LT D R M C	Same as SP6.	+ S, M –LT D R M	The Blue Ribbon Network includes the Thames, the canal network, the other tributaries, rivers and streams within London and London's open water spaces such as docks, reservoirs and lakes. The SA objective will be achieved through protecting the watercourses in the LLDC area including where it creates opportunities for enjoyment,	O S, M –LT D R M C	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.

		effective series of Green Grid links.						such as boating and other water related activities.		
To protect and enhance the cultural heritage resource	O S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.
To protect and enhance the quality of water features and resources and reduce the risk of flooding	O S, M –LT D R M C	Policies NE3 and NE4 specifically focus on this SA Objective.	O S, M –LT D R M C	Protecting the quality of water is not the primary focus of the policy.	O S, M –LT D/I R M C	Same as SP6.	+/- S, M –LT D R M	An objective of the policy is to protect and enhance the role of the waterways for biodiversity, drainage and management of flood risk. Ching Brook current ecological quality is „Poor“ and the 2015 predicted ecological quality is also „Poor“. The Environment Agency’s interactive mapping states that the watercourse” current chemical quality is a „Fail“ and also predicted to „Fail“ in 2015. Indirect beneficial impact on the water quality by reducing surface run-off through implementing appropriate sustainable drainage systems. <i>Additional measures should be taken to improve water quality of the rivers in the area where appropriate.</i>	+ + S, M –LT D/I R M C	Policy NE4 is very clear in its focus upon managing flood risk in the LLDC area through appropriate management techniques which would guard against the pollution of watercourses.
To limit and adapt to climate change	O S, M –LT D R M C	Policy NE4 specifically focuses on this SA Objective.	O S, M –LT D R M C	Same as SP6.	O S, M –LT D R M C	Same as SP6.	+ S, M –LT D R M	The policy clearly states that the waterways in the area have an important flood management role and developments will not be permitted if they have any adverse effect on this function.	+ + S, M –LT D/I R M C	Same as above.
To protect and improve air quality	+ S, M –LT I R M C	Policy SP6 has an indirect beneficial effect on air quality through creating and protecting Green Grid links and encouraging people to use sustainable modes of transport.	+ S, M –LT I R M C	There are a great number of SINC in the area. In addition, Hackney is the greenest inner London borough, with more than 40% of land made up of parks, open spaces, gardens and other green areas. Protecting and enhancing the area’s natural environment will have long-term indirect benefits for air quality by helping to remove pollutants from the atmosphere.	+/- S, M –LT I R M C	The area is already well served by public transport. In the long term and indirectly air quality is likely to be improved due to improved and safe sustainable access to waterways and open spaces which may encourage people to walk or cycle (particularly for short distance trips).	O S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.	O S, M –LT D R M	There is no clear relationship between the policy and / or the achievement of the SA Objective or the relationship is negligible.
