Adventures with
University of Hull**
(1-day course,
10am-4pm)

WORKSHOP GLOSSARY FOR 12-14 YEAR OLDS

WORKSHOPS	WHAT YOU’LL EXPERIENCE	SKILLS YOU’LL GAIN
Through Your Lens: Creative Storytelling with X7eaven Monday 26 - Thursday 29 October	Embark on a creative journey where you'll explore Black history, culture and identity through dance, spoken word and filmmaking. Discover how Black creativity has shaped history, inspired change and brought people together across generations, from African traditions and Lindy Hop to jazz, funk, soul and hip-hop. Through movement, discussion and storytelling, you'll explore personal experiences, perspectives and the stories that matter to you while building confidence and developing new creative skills. The course culminates in the creation of a short film that captures your voice, movement and unique perspective.	• Discover the stories, history and influence behind Black dance and music styles. • Improve your coordination, rhythm, fitness and confidence through movement. • Make new friends and work as a team. • Develop creative, communication and filmmaking skills while producing a short film.
Clay to Stage: Prop and Costume Design Wednesday 28 - Thursday 29 October	Get your hands dirty while improving your design skills at a special course led by London College of Fashion, UAL. Make your own clay, choose your theme and craft a grotesque-style mask ready for a captivating performance! Gain skills and confidence in drawing, using collage as a visual tool, and learn how to turn your ideas into 3D art.	• Introduction to costume and performance. • Develop students research ideas. • Gain confidence drawing and using collage to create visual ideas. • Developing ideas into 3D outcomes.

WORKSHOP GLOSSARY FOR 12-14 YEAR OLDS

WORKSHOPS	WHAT YOU’LL EXPERIENCE	SKILLS YOU’LL GAIN
Design for Tomorrow: Sustainability and Making Monday 26 - Tuesday 27 October	Can you design products with less waste and more impact? This hands-on programme challenges you to think like a designer and maker, exploring innovative materials, circular design, and sustainable manufacturing. Through practical activities and creative problem-solving, you'll develop ideas that could help build a greener future.	• Sustainable design and circular economy knowledge • Creative making and prototyping skills • Innovation and design thinking • Problem-solving and critical thinking • Collaboration and teamwork skills
Future Minds: A Day of AI Adventures with University of Hull Wednesday 28 October	Step into the exciting world of Artificial Intelligence! In this fun, hands-on workshop, you'll discover how AI works, train a simple machine-learning model, and explore how generative AI can create text, images and ideas. You'll also learn how to spot deepfakes, question online information, and think about using AI safely and responsibly. Through interactive activities, creative challenges and group discussions, you'll develop the skills to understand and shape the technology of the future.	• Understand AI fundamentals • Build technical knowledge • Develop critical thinking • Grow online safety skills
