**INFORMATION REQUEST REFERENCE 15-038**

Dear 

Thank you for your information request, received on 6 July 2015. You asked us to provide the following information under the Environmental Information Regulations 2004 (EIR):

*“Please review your decision because I do not accept that this information has been provided to me previously. Furthermore, I have provided you with a recent photograph of the Olympic Stadium which clearly shows there is NO ROOF on the Stadium, hence, it would automatically follow the Stadium is devoid of any Lightning Protection. Please show me/explain to me how you propose to uses the ROOF as a LPS Finial if there is no roof.  
At no time have you provided me with any such data.”*

In response to your above comments:

In your request to the London Legacy Development Corporation (Legacy Corporation) ref: 15-013, received on 9 March 2015, you requested “an approved copy of the Lightning Risk Assessment for the design phase of the refurbishment project” [of the Stadium]. The Legacy Corporation response of 29 April 2015 included the report of lightning protection risk assessment for Olympic Stadium.

In your request to the Legacy Corporation ref: 15-035, received 30 June 2015, you requested “a copy of your lightning risk assessment of the Olympic Stadium”. The Legacy Corporation response of 3 July 2015 referenced the earlier response where this document was provided.

The most up to date images of the Olympic Stadium can be accessed via a live web link on our website: <http://queenelizabetholympicpark.co.uk/the-park/venues/the-stadium>

The rear roof has lightning protection tapes installed on it, the front roof is used as the conductor; this is metallic and is compliant with the relevant legislations.

If you are unhappy with our response to your request and wish to make a complaint or request a review of our decision, you should write to:

Executive Director of Finance and Corporate Services
