From SAG today -

- Police don't think even splinter group will now march - organiser realised the responsibility involved,
- There may be spontaneous demos - if so we (along with Met and LS185) will deal appropriately. Met will have an extra PSU on hand in case of any escalation,
- If there is a proper plan for a future march or demo - with appropriate stewarding, planning and agreed route etc then we would look to accommodate as per our policy. Also spontaneous demos can be more difficult to deal with, but LS185 agreement would be needed as we licence the space to them on event days,
- [REDACTED] is Gold on Saturday and if anything changes in meantime then we will send an update

Mark

Mark,

Can you do a quick note to Peter on latest intelligence on the March and our intended stance?

What's our attitude to a march like this? We let it happen? (Hope so!).

with best wishes
 Sir Peter Hendy CBE
 Chair
 Network Rail, and the London Legacy Development Corporation

These are my proposed lines

Kind regards

Tony

DDI: [REDACTED]
Mob: [REDACTED]

[REDACTED]

Thank you for the plan and email you have sent to both LS185 and LLDC.

We do not normally allow protests/demonstrations or marches that lend towards either of those. Saying that, where a considerable amount of planning goes into a peaceful march we are able to consider an application should an appropriate area be identified and providing that safety and security is not compromised at any point.

In certain circumstances permission may be given for those who wish to hold a demonstration in the QEOP, so long as it does not directly relate to an activity within the park and or does not pose a risk to other park users. This is all taken into consideration along with a risk analysis and guidance from the Local Authority (LBN) and Metropolitan Police Service.

LLDC may consider requests if:

- The date is available
- There is no risk of public disorder
- There is no entertainment involved
- Protest Group agree to QEOP's conditions and those of relevant authorities should agreements be reached
- Those attending should arrive by public transport or on foot.
- Banners or placards may not be displayed while in the park;
- Only a mobile public address system, brought into the park and removed on the same day and audible only to those participating, will be allowed;
- No advertising or promotional material will be allowed, or any form of commercial activity;
- No entertainment or other performances may take place;
- Stages or structures in any way shape or form are not permitted;

- No collections of monies may take place in the park;
- Assemblies may not commence (on the park) more than an hour before the specified start time and may not extend beyond ninety (90) minutes.
- The event must not breach Park Regulations or byelaws.
- Messages, recordings or leaflets used must not contain, profanities, religious radical material likely to offend, any material likely to offend or material deemed as inappropriate or likely to cause a disturbance or public order incident.

Your request should be received by LLDC a minimum 28 calendar days before the date you want the event to take place

- *You will need to supply the following information in writing when applying:*
- An event management plan containing
- The purpose of the event
- The name and address of the organisation seeking to hold it;
- The date and time of the event;
- How many people you expect will attend up to maximum numbers of 50;
- Number of speakers;
- How long the planned event is expected to last;
- Relevant requests for or actual licences and or permissions from appropriate local authorities;
- A delivery plan, risk assessment, marshalling plan, route plan, traffic management planning and any other relevant information demonstrating your organisation's ability to manage the event.

Your organisation would be invited to a meeting (providing the first stage is appropriate) with a designated representative from LLDC; the London Stadium; the Local Authority and The Metropolitan Police Service to discuss the proposed event.

If agreement in principle is gained, we will send you the form of indemnity, insurance requirements and agreement to sign and ask your organisation for the deposit. These documents must be signed and returned within 14 days from the date on the letter.

Formal permission may be given once we have received the signed documents and we have confirmation of any deposit as being cleared by our finance team.

If we do not receive the signed documents or the deposit within 14 days, the date will no longer be held and the event will not be able to take place. LLDC will confirm this by letter and or email. LLDC will write to say that your organisations application has lapsed and the specified date will no longer be held.

Whilst we would not actively seek to put obstacles in your way these are the minimum

requirements needed for us to consider a potential protest march, and like John has stated we need to ensure the safety and security of all residents, tenants, visitors and those of yourself and the fan groups is not compromised.

 > We are happy to sit down with you, as the organiser, and work out a revised plan but unfortunately that will take a significant amount of time (we usually ask for 28 days notice for planning an event of this size) primarily because of the complicated nature of the site in question. Unfortunately it is not simply a case of 'taking over the existing plan' because there is no existing plan to speak of; we had one brief meeting last week with the previous organiser where a couple of alternative routes were discussed and we were awaiting a detailed route plan and event management plan but have not received anything since.
 >
 >
 >
 >
 > The proposed route which you submitted (attached) needs some further thought because there is no designated area for participants to safely congregate prior to setting off; the proposed route take place on busy roads, with live traffic and multiple crossing points; it transverses pavements which are fairly narrow in places and could also impact on the road closure operation which is put in place on match days (which involves heavy machinery moving concrete blocks into position). There are events at both the Copper Box and Here east on Saturday with significant vehicle movements expected in the area (in addition to the usual heavy weekend Westfield traffic.) The route also looks like it crosses from Montfichet road onto the Southern Loop road which is not actually possible (in order to get from Montfichet Road to the South Park Lawns you would need to use Pool Street.)

- >
- >
- >
- > The other main problem with the proposed route is that there are a large number of crossing points and for a crowd of 2,000 there would be a requirement for a substantial number of stewards/trained traffic marshals at each of the identified safety critical points, to make sure these crossing points were safely managed. We would also suggest that you arrange for some toilets, especially if there is to be a rally at the end and maybe also consider some first aid provision, just in case someone falls over on the march. All of these points can be picked up in your risk assessment process and event management planning, and I have attached some guides to assist you in this respect.
- >
- >
- >
- > We have extensive experience of processions and marches in Newham and would be happy to assist you to put together a safe plan which would help you to discharge your responsibilities under the Health & Safety at Work etc. Act as the responsible person (event organiser.) We would also always recommend you obtain Public Liability Insurance to cover yourself should the unexpected happen as well (as it sometimes does.)
- >
- >
- >
- > The Queen Elizabeth Olympic Park is a very complicated site in terms of land ownership and responsibilities, with various landowners, stakeholders and operators; especially on event days, and you would need to secure permission of the landowner for all of the areas which were not under Council control. This in itself can be a mammoth task and certainly not one which can be conceivably be achieved in a couple of days. London Borough of Newham roads become the responsibility of the Stadium Operator, LS185, on match days when the roads are closed for ingress and egress for stadium events and they, along with LLDC as principal landowner would need to be on board with your proposals. It is highly unlikely that the road closure timings could be changed at this late stage so more thought needs to be given to the timings as well. There is also the issue of noise from any sound system/ loudhailers etc. you may wish to bring along, as well as power supply/generators etc.
- >
- >
- >
- > I hope this does not appear too negative but as I said previously, very little planning has gone into this event thus far and we have a responsibility to keep both Newham residents and visitors to the Borough safe and therefore have a active interest in making sure the proposed event is as safe and well managed as possible as the regulator for Health & Safety in the Borough.

- Both apologies but external emails not working and im doing this from web archive (not the best)
-
-
-
- [REDACTED]

Thank you for the plan and email you have sent to both LS185 and LLDC.

We do not normally allow protests/demonstrations or marches that lend towards either of those. Saying that, where a considerable amount of planning goes into a peaceful march we are able to consider an application should an appropriate area be identified and providing that safety and security is not compromised at any point.

In certain circumstances permission may be given for those who wish to hold a demonstration in the QEOP, so long as it does not directly relate to an activity within the park and or does not pose a risk to other park users. This is all taken into consideration along with a risk analysis and guidance from the Local Authority (LBN) and Metropolitan Police Service.

LLDC may consider requests if:

- The date is available
- There is no risk of public disorder
- There is no entertainment involved
- Protest Group agree to QEOP's conditions and those of relevant authorities should agreements be reached
- Those attending should arrive by public transport or on foot.
- Banners or placards may not be displayed while in the park;
- Only a mobile public address system, brought into the park and removed on the same day and audible only to those participating, will be allowed;
- No advertising or promotional material will be allowed, or any form of commercial activity;
- No entertainment or other performances may take place;
- Stages or structures in any way shape or form are not permitted;
- No collections of monies may take place in the park;
- Assemblies may not commence (on the park) more than an hour before the specified start time and may not extend beyond ninety (90) minutes.
- The event must not breach Park Regulations or byelaws.
- Messages, recordings or leaflets used must not contain, profanities, religious radical material likely to offend, any material likely to offend or material deemed as inappropriate or likely to cause a disturbance or public order incident.

Your request should be received by LLDC a minimum 28 calendar days

before the date you want the event to take place

- You will need to supply the following information in writing when applying:
- An event management plan containing
- The purpose of the event
- The name and address of the organisation seeking to hold it;
- The date and time of the event;
- How many people you expect will attend up to maximum numbers of 50;
- Number of speakers;
- How long the planned event is expected to last;
- Relevant requests for or actual licences and or permissions from appropriate local authorities;
- A delivery plan, risk assessment, marshalling plan, route plan, traffic management planning and any other relevant information demonstrating your organisation's ability to manage the event.

Your organisation would be invited to a meeting (providing the first stage is appropriate) with a designated representative from LLDC; the London Stadium; the Local Authority and The Metropolitan Police Service to discuss the proposed event.

If agreement in principle is gained, we will send you the form of indemnity, insurance requirements and agreement to sign and ask your organisation for the deposit. These documents must be signed and returned within 14 days from the date on the letter.

Formal permission may be given once we have received the signed documents and we have confirmation of any deposit as being cleared by our finance team.

If we do not receive the signed documents or the deposit within 14 days, the date will no longer be held and the event will not be able to take place. LLDC will confirm this by letter and or email. LLDC will write to say that your organisations application has lapsed and the specified date will no longer be held.

Whilst we would not actively seek to put obstacles in your way these are the minimum requirements needed for us to consider a potential protest march, and like [REDACTED] has stated we need to ensure the safety and security of all residents, tenants, visitors and those of yourself and the fan groups is not compromised.

>

>

> The proposed route which you submitted (attached) needs some further thought because there is no designated area for participants to safely congregate prior to setting off; the proposed route take place on busy roads, with live traffic and multiple crossing points; it transverses pavements which are fairly narrow in places and could also impact on the road closure operation which is put in place on match days (which involves heavy machinery

moving concrete blocks into position). There are events at both the Copper Box and Here east on Saturday with significant vehicle movements expected in the area (in addition to the usual heavy weekend Westfield traffic.) The route also looks like it crosses from Montfichet road onto the Southern Loop road which is not actually possible (in order to get from Montfichet Road to the South Park Lawns you would need to use Pool Street.)

>

>

>

> The other main problem with the proposed route is that there are a large number of crossing points and for a crowd of 2,000 there would be a requirement for a substantial number of stewards/trained traffic marshals at each of the identified safety critical points, to make sure these crossing points were safely managed. We would also suggest that you arrange for some toilets, especially if there is to be a rally at the end and maybe also consider some first aid provision, just in case someone falls over on the march. All of these points can be picked up in your risk assessment process and event management planning, and I have attached some guides to assist you in this respect.

>

>

>

> We have extensive experience of processions and marches in Newham and would be happy to assist you to put together a safe plan which would help you to discharge your responsibilities under the Health & Safety at Work etc. Act as the responsible person (event organiser.) We would also always recommend you obtain Public Liability Insurance to cover yourself should the unexpected happen as well (as it sometimes does.)

>

>

>

> The Queen Elizabeth Olympic Park is a very complicated site in terms of land ownership and responsibilities, with various landowners, stakeholders and operators; especially on event days, and you would need to secure permission of the landowner for all of the areas which were not under Council control. This in itself can be a mammoth task and certainly not one which can be conceivably be achieved in a couple of days. London Borough of Newham roads become the responsibility of the Stadium Operator, LS185, on match days when the roads are closed for ingress and egress for stadium events and they, along with LLDC as principal landowner would need to be on board with your proposals. It is highly unlikely that the road closure timings could be changed at this late stage so more thought needs to be given to the timings as well. There is also the issue of noise from any sound system/ loudhailers etc. you may wish to bring along, as well as power supply/generators etc.

>

>

>

> I hope this does not appear too negative but as I said previously, very little planning has gone into this event thus far and we have a responsibility to keep both Newham residents and visitors to the Borough safe and therefore have a active interest in making sure the proposed event is as safe and well managed as possible as the regulator for Health & Safety in the Borough.

>

>

>

> Please have a look through the attached documents and come back to me if you would like to discuss an alternative potential date of if you would like some help in putting together your event plan/discussing the best route to consider.

I don't normally do an update post-SAG but six points worth noting from today's meeting –

- NTH only – 'going well'. Westfield want "small" amendment – were meeting LS185 to discuss post-SAG. New STH (out only)/Mezz (in) to be trialled Saturday.
- March - Police view that splinter group march is off for Saturday, but there may be 'spontaneous demo'. Police will have an extra PSU on hand. [REDACTED] will be Gold on Saturday and update as appropriate.
- Bobby Moore – WHU celebrating BM Saturday. No mention of collections – may be raised at partner briefing if planned.
- CCTV – LBN happy with plans. SGSA didn't comment.
- Concerts – Westfield proposed licensing F21 steps and TCLB to E20/LS185. Alan S – we should discuss.
- Capacity – West Ham raised extra capacity. We agreed to leave commercial positions aside, as nothing to do with SAG. General consensus was – still need to nail Egress, persistent standing still an issue, Block 114 still an issue, currently getting low/mid 40,000s – so not fully tested at 57,000 yet.

Dear Lyn and Mark,

I have reviewed the planned communication with the club, as we discussed at SEG yesterday.

Rather than send the original itemised response, I suggest we issue a more generic reply, ideally on Monday when we will know how the weekend passed off.

Suggested text is in red at above Alan's original draft in the attachment.

Happy to discuss.

Ben

Gerry,

Please find below notes from this morning's SEG meeting.

Thanks,

[REDACTED]

WHU Fans' Protest

- Following meeting between Baroness Brady and fans groups the large protest proposed for the Burnley match on 10/03 is cancelled
- A splinter protest involving c.2000 supporters is still being discussed
 - Westfield / LS185 / LLDC not happy with the current proposed route
 - Tony Tolley is meeting with stakeholders to see what route could be acceptable (Tony is of the view that it is better to work with any potential protesters rather than against them in this instance)
- WHU insist that if any protest goes ahead the pledges made in the open letter to fans ([here](#)) will be withdrawn
 - E20 need to consider their response to letter

Subject: Agenda - Stadium SAG Meeting (SSAG) - 6 March 18
Importance: High

From: [Tony Tolley](#)
To: [REDACTED]@newham.gov.uk
Subject: RE: Proposed West Ham Protest
Date: 05 March 2018 14:22:09

Pool street main works haven't started as yet, but the route doesn't make sense for me either – you cant get from Montfitchet straight to loop road etc.

- The route cant start at the hanger/copper box – we have two event going on at this end – Ju Jitsu championships in CBA and Weighting lifting championships in Here East.
- They indicate putting road closures back an hour – but this would mean a rush on to put the blocks in before spectators are using the routes (I would have though that they would want the protection of the blocks any way as 2000 in a crowd)
- So I have a suggestion which could be as follows;
 Form up and start by the platform 13 on Gibbins
 March down carpenters, and either turn left onto loop road and then over the hard standing of the south park lawn area / Exit would be the reverse OR turn right and in via pool street and H05 and out via South park lawn and loop to carpenters.
- Other points to note are the contents of KB open letter around the charity collection and what this could mean and also the marshalls need to be chapter 8 for the roads unless its going to be a policed event and they will support the slowing / stopping of vehicles.

Kind regards

Tony

Subject: RE: Proposed West Ham Protest

The route doesn't make sense does it? Are the Pool St repairs going to be in?

Can you have a think about;

- a) where they can safely gather?
- b) a safe route prior to road closures going in?
- c) a safer alternative route once road closures have gone in?
- d) A safe place to gather?

I know they will need permission. Up to 2k.

Thanks old bean

Subject: Proposed West Ham Protest

Dear All

I just wanted to follow up from correspondence I've had with some of you in the last day or so and on the advice [REDACTED] have included Tony and [REDACTED] from the Olympic Park and Stadium.

As you may be aware a Protest was planned for Saturday 10th March - the details of which were shared with the Police but not the additional stakeholders included here, this was pulled by the group however a large group of West Ham supporters would still like to protest on that day and are planning on heading to Stratford Park before marching to the stadium.

My hope [REDACTED] is to work with you all agree and arrange a new march that will allow peaceful protest on the day and not impact on the wider community.

My proposed route is below, my hope, as you will see, is compromise as there has to be a march to please the West Ham Supporters (a static protest won't work) and it takes into consideration the normal road closures that come into effect on a Saturday. at 13:00. The planned start time of 11:30/45 would mean we would only need to bring the closures forward an hour or so.

We have 7 qualified stewards who are happy will be there as well as an additional 10 volunteers to help them. We expect the attendance to be no greater than 2,000 but will monitor this and staff accordingly.

Upon arriving at the open space the idea is to have some speakers from 3 or 4 supporters groups. We will use a loudhailer. We would not finish later than 13:00. Allowing plenty of time for people to enter the stadium. I will make sure we have a nearby van to store banners and flags in, if they are not suitable to be taken into the stadium, as well as the loudhailer etc.

Due to late notice of this I will seek insurance early on Monday morning - I've done this before for a similar event and wasn't an issue. I have fully registered the details via the Met Police as of this evening (3/3/18)

Due to the late cancellation of the previous plans for this to be effective we must pass notice to supporters and encourage them not to descend on Stratford Park as planned. So with that it would be great if this can be considered as soon as possible.

My mobile number is [REDACTED]

I look forward to hearing from you.

Kind Regards

Good afternoon [REDACTED]

Many thanks for the email, unfortunately your proposed route map isn't showing, could you please re-send it as a PDF attachment?

Also, we will have to discuss the proposed change in times of the road closures with Newham Council, it is also worth noting that there are costs involved with the road closures.

I look forward to receiving your route map.

Kind Regards

Subject: Proposed West Ham Protest

Dear All

I just wanted to follow up from correspondence I've had with some of you in the last day or so and on the advice [REDACTED] have included Tony and [REDACTED] from the Olympic Park and Stadium.

As you may be aware a Protest was planned for Saturday 10th March - the

details of which were shared with the Police but not the additional stakeholders included here, this was pulled by the group however a large group of West Ham supporters would still like to protest on that day and are planning on heading to Stratford Park before marching to the stadium.

My hope [REDACTED] is to work with you all agree and arrange a new march that will allow peaceful protest on the day and not impact on the wider community.

My proposed route is below, my hope, as you will see, is compromise as there has to be a march to please the West Ham Supporters (a static protest won't work) and it takes into consideration the normal road closures that come into effect on a Saturday. at 13:00. The planned start time of 11:30/45 would mean we would only need to bring the closures forward an hour or so.

We have 7 qualified stewards who are happy will be there as well as an additional 10 volunteers to help them. We expect the attendance to be no greater than 2,000 but will monitor this and staff accordingly.

Upon arriving at the open space the idea is to have some speakers from 3 or 4 supporters groups. We will use a loudhailer. We would not finish later than 13:00. Allowing plenty of time for people to enter the stadium. I will make sure we have a nearby van to store banners and flags in, if they are not suitable to be taken into the stadium, as well as the loudhailer etc.

Due to late notice of this I will seek insurance early on Monday morning - I've done this before for a similar event and wasn't an issue. I have fully registered the details via the Met Police as of this evening (3/3/18)

Due to the late cancellation of the previous plans for this to be effective we must pass notice to supporters and encourage them not to descend on Stratford Park as planned. So with that it would be great if this can be considered as soon as possible.

My mobile number is [REDACTED]

I look forward to hearing from you.

Kind Regards

[REDACTED]

Good afternoon,

I have just received confirmation that the organised protest march will not now go ahead on 10 March 2018.

This follows on from discussions between the organisers of that march and the WHUFC Vice Chair.

The police have withdrawn the resources that were allocated to it.

No intelligence at this time to suggest that any splinter groups will proceed.

[REDACTED]

This email relates to the proposed protest march to undertaken by West Ham supporters on the 10th March 2018 (<https://www.football.london/west-ham-united-fc/news/west-ham-fans-protest-march-14290091>)

[REDACTED] contacted me recently regarding this, and he advised the CE didn't wish for

Newham to take any action in this matter i.e. closing roads etc. I indicated that as far as I was aware we had not been approached by anyone formally, and that this should be dealt with by police, to date we have not received anything in Network Management from any potential protest organiser.

I advised [REDACTED] that under Section 16A of the Road Traffic Regulation Act 1984 as amended by the Road Traffic Regulation (Special Events) Act 1994 (see below), that this protest does not fall within the RTRA as it is not a relevant event, nor should we be closing the roads to facilitate the protest, or to mitigate the disruption caused.

Road Traffic Special Events Act 1994

1. Prohibition or restriction on roads in connection with certain events.

1. After section 16 of the Road Traffic Regulation Act 1984 there shall be inserted—

“16A Prohibition or restriction on roads in connection with certain events.

(1) In this section “relevant event” means any sporting event, social event or entertainment which is held on a road.

(2) If the traffic authority for a road are satisfied that traffic on the road should be restricted or prohibited for the purpose of—

(a) facilitating the holding of a relevant event,

(b) enabling members of the public to watch a relevant event, or

(c) reducing the disruption to traffic likely to be caused by a relevant event,

the authority may by order restrict or prohibit temporarily the use of that road, or any part of it, by vehicles or vehicles of any class or by pedestrians, to such extent and subject to such conditions or exceptions as they may consider necessary or expedient.

Given that roads are closed under a permanent Traffic Management Order around the London Stadium and the Queen Elizabeth 2 Park, I feel that the Council has done what it can through a permanent process to reduce traffic disruption on match days. As this protest is in the public domain as shown by the link attached, there would be likelihood that other elements i.e. rival supporters, etc. may try to influence or disrupt it, and cause public order issues. [REDACTED] West Ham at the London Stadium has heard there is chatter on social media about this possibility.

I have advised both [REDACTED] and [REDACTED] verbally that the Police have their own Powers under the Public Order Act 1986, the Road Traffic Regulation Act 1984, and the Section 52 of the Metropolitan Police Act 1839 (Commissioners Directions) to be able to deal with this.

I'm not aware if Active Newham are involved in any permissions given to use the park, or whether this has just been chosen due to the proximity to Stratford by the protest, nor the QE2 Park by LLDC.

My major concern is that with the works being undertaken by Newham, and the utilities for the Stratford Gyratory Scheme, there will be lots of cones, barrier rails, spoil and other materials laying around which would be a source of ammunition for those who would seek to disrupt this protest or cause damage to property.

If [REDACTED] and I are to attend the meeting tomorrow at Lambeth, I would seek some conformation of the CE stance on not doing anything on this please. We have had similar issues with spontaneous events in the past and I attach some previous correspondence to police where we said we would not be making a S16A Order as the legislation doesn't cover it for information.

Regards.

Hi ██████████

No application has been submitted and the view of our Networks Management team is that this is not something that the Council could deal with as this is a police and public order matter as it is a protest. It therefore does not fall within the legislation that the council can use.

I know you may disagree.

Could our Network Management officers attend your meeting with the organiser?

They have strong views on on the safety aspect, as would TfL as the High Road is a strategic route.

Could you please reply all and let us have the details of the time and venue for the meeting?

Thanks

Hi,

I have just heard that the march will be from the old ground to the away coach parking area on Marshgate.

Have you heard this?

Had any formal notification ?

Request for road closures?

Thanks
