We are in discussion with the Environment Agency to have an enforcement notice removed from the public register that is in relation to an offence dated back in 2014 i.e. EPA S34(5) - Furnish written descriptions / Transfer Notes. No formal enforcement notice was issued to blu-3(UK)LTD and after our solicitors challenged this, the notice was removed. However when the EA upgraded their register the offence re-appeared. Although blu-3(UK) Ltd dealt with this matter at the time we have always had an open culture of promoting improvements and always looked to learn from past experiences obtained from other projects. With this in mind we have since put a greater emphasis on the Duty of Care and reviewed our procedures in terms of waste management with the view of improving our EMS and test its effectiveness on a constant basis.
