A23-A24 Lead contact for No
a group of economic operators

A25 - Name of group of N/A
economic operators

A26 - Proposed legal N/A
structure of the group of
economic operators

A27 Sub-contractors Yes
Upon award of the contract, subcontractors will be appointed by the procurement team after full consultation with the project team. This ensures we combine the benefits of national relationships with the local needs. Part of the award will be all necessary due diligence checks including financial stability, current capacity and workload including any look ahead for long term projects to understand the impact this would have on their business over the future of the project.
Post contract award, Sisk have a number of processes in place that will be utilised including pre-commencement meetings, health & safety protocol etc, which are there to ensure our supply chain partners

are fully aware of the key elements of the project and the requirements on both them and Sisk to delivering a safe, high quality project for our client.

The importance of supply chain partners for the Stratford Waterfront Enabling works will be reduced by Sisk's ability to self-deliver large elements of work (e.g. earthworks, drainage, structures). We typically self-deliver up to 50% of highway and civils projects and only work with suppliers who can genuinely add value to delivery. Given market pressures and an increasing demand on the supply chain we believe this is a key benefit to the Stratford Waterfront Enabling works.

A28-A37 Declaration & Mandatory Undertaking	A29 Declaration JSSHL.pdf A29 Mandatory Undertaking JSSHL.pdf Stratford Waterfront Enabling Works - Confidentiality Agreement - JSSHL.pdf
