**Local campaigners for responsible development. The Network Rail site's connection to Bow East – is there a conflict of interest?**

I am chair of Network Rail. I'm not personally involved in Bow East, we own a lot of land. The Chair of LLDC will never be involved in the planning committee. My understanding is that LLDC have asked for the applications to be withdrawn.

There are rumours that I have personally lobbied on this issue but this is untrue.

**But is it a challenge? Being involved in both organisations?**

That's why I've declared my role. If there is perceived conflict, then you need to declare it, understand it, and make a decision about how it should be handled.

End.

Hello Peter

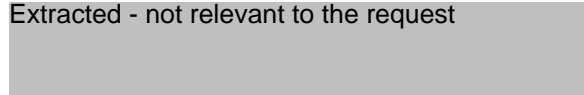

Attached is the latest draft of the briefing for David and Gerry for their Budget Monitoring Sub scrutiny hearing at the Assembly next week.

This will form the basis of the briefing for the Plenary so is probably the most up to date information to read prior to our prep meeting.

Extracted - not relevant to the request

Extracted - not relevant to the request

Extracted - not relevant to the request

Extracted - not relevant to the request

Extracted - not relevant to the request

Extracted - not relevant to the request

Extracted - not relevant to the request

I have some more information to add into the briefing early next week but I will send you a revised version before our meeting.

Ben also suggested that the information provided for your confirmation hearing in July (also attached) is worth reviewing as many of the issues are still relevant.

Have a good weekend.

Mark

### **Bow East**

- The Legacy Corporation's Planning team received four applications to build concrete batching and asphalt works on the site at Bow Goods Yard East, a site not owned by LLDC, triggering significant protests from local residents.
- LLDC could not withdraw the applications as this is solely a matter for the applicants. LLDC Planning Authority team wrote to them on 13<sup>th</sup> January 2017, and again on 16<sup>th</sup> June 2017, suggesting that the applications be withdrawn. However, the applicants did not do so.
- At a meeting of the Planning Decisions Committee on 26 September 2016 the applications were refused.
- The planners had suggested that if the applicants want to submit revised plans they will need to make an application for the entire site and do more to address the cumulative environmental impacts of the proposed scheme.
- The site has always been designated in planning as a Strategic Industrial Location and is a safeguarded railhead. This defines the land as being suitable in principle for a range of transport and industrial uses.
- This long-term designation is also reflected within the Legacy Corporation's statutory Local Plan (adopted in July 2015). As a rail delivery site and as a protected railhead, its use will help reduce the volume of heavy goods vehicle traffic on London's road network.

### **Chairman conflict of interest line:**

Sir Peter was recruited through an open process managed by the Greater London Authority (GLA) and supported by executive search company Green Park. The role was advertised in The Times and on the Green Park, GLA and LLDC websites. Following a thorough and objective shortlisting process, there was a robust three stage interview process undertaken by Green Park and the GLA.

The planning applications were not made by Network Rail and Sir Peter has had no direct involvement in any aspect of the Bow Goods Yard site - nor does he have any personal interest in the site's future.

More generally, LLDC has robust and well-established mechanisms for ensuring conflicts of interest do not arise. Importantly, it has an independent Planning Decisions Committee (PDC). The PDC is made up of five representatives of the local boroughs, four independent members and three members of the LLDC Board. Sir Peter will not be a member of the PDC.

## London Assembly Confirmation Committee

**Heading date:** Monday 17 July 2017, 10am, Committee Room 3

**Briefing for:** Sir Peter Hendy, Proposed LLDC Chairman

**Briefing by:** Mark Robinson \ [REDACTED]

**Contents:**

1. Composition of Committee and background
2. Potential Questions
3. LLDC Key Issues
4. Previous Assembly Chair Confirmation Hearing Transcripts
  - 4.1 Daniel Moylan, LLDC Confirmation Hearing – May 2012
  - 4.2 Neale Coleman CBE, LLDC Confirmation Hearing – May 2015
  - 4.3 David Edmonds CBE, LLDC Confirmation Hearing – October 2017
  - 4.4 Liz Peace CBE, OPDC Confirmation Hearing – April 2017

---

### **COMMITTEE BACKGROUND**

The Assembly may hold Confirmation Hearings when the Mayor proposes appointing the chair of a GLA functional body.

The Mayor must notify the Assembly when he wishes to make one of the above appointments, and the Assembly has three weeks to respond to him with a recommendation as to whether the appointment should be confirmed. The Assembly can ask a candidate to answer questions relating to the appointment before making a recommendation.

***Your confirmation hearing is scheduled to take place at 10am on Monday 17 July 2017 in committee room 3***

The Mayor can either accept or reject the Assembly's recommendation and must notify the Assembly of his decision. The appointment cannot be made until the end of the confirmation process.

## **POTENTIAL QUESTIONS FROM CONFIRMATION COMMITTEE**

Based on hearings for previous Chairs of LLDC and the recent appointment of a Chair for OPDC please find below some potential questions that may arise:

1. Extracted - not relevant to the request

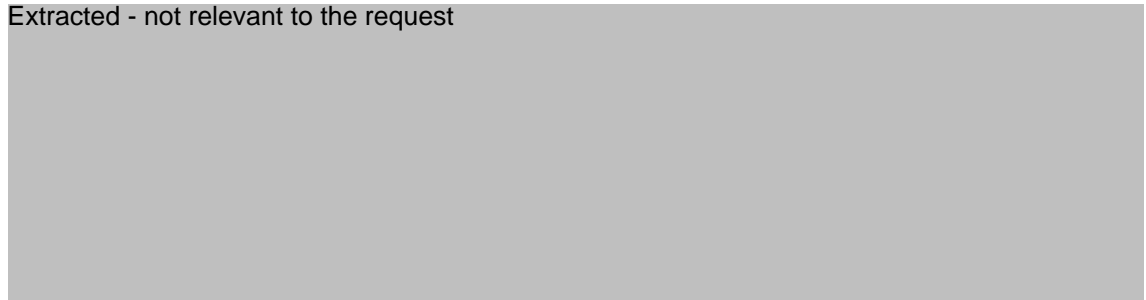

2. Extracted - not relevant to the request

3. Extracted - not relevant to the request

4. Extracted - not relevant to the request

5. Extracted - not relevant to the request

6. Extracted - not relevant to the request

**7. You remain as chairman of Network Rail. Are you not conflicted on decisions relating to the Bow East goods yard?**

- a. Network Rail owns the site but it is leased to DB Cargo.
- b. DB Cargo's prospective sub-tenants have submitted planning applications for concrete and asphalt works – not Network Rail.
- c. Final decision will be made by independent planning decisions committee comprised of elected representatives from Newham, Hackney, Tower Hamlets and Waltham Forest, LLDC Board members and independent planning and property experts.

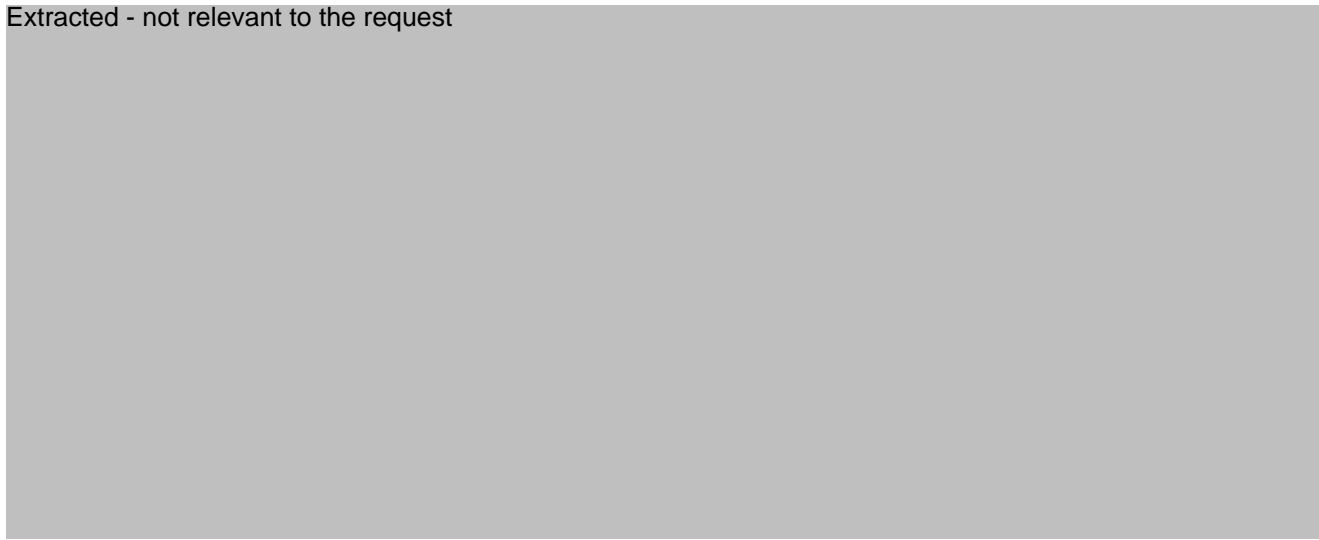

**BOW GOODS YARD EAST**

Bow East is a strategic rail head owned by Network Rail and leased to DB Cargo. The site, formally used for the warm-up track in the London 2012 Games, has been the subject of four planning applications for concrete and asphalt plants. The applications have caused significant concern among local residents and local politicians including the Mayors of Newham and Tower Hamlets and local MPs.

LLDC's Planning Decisions Team has written to the applicants (January and June 2017) suggesting that they withdraw their applications but to date they have not done so.

Your nomination as LLDC Chair has also prompted several letters from local residents complaining that you would be conflicted in the role due to your position at Network Rail. The Mayor of London has written back to explain that there is no conflict as Network Rail has not submitted the planning applications and that the formal decisions are made by LLDC's independent planning decisions committee.

**Bow East Goods Yard Rail Head / Concrete Batching**

**Page 70**

Extracted - not relevant to the request

## **Bow East Goods Yard Rail Head / Concrete Batching Plant**

### **Issue**

Three separate planning applications for aggregate related industries, including concrete batching and concrete block manufacture, at the Bow East rail head site were refused by LLDC in September 2017.

The reasons for refusal include:

- adverse impact on local walking and cycling routes from traffic movements
- detrimental visual impact on QEOP
- a cumulative detriment to the regeneration objectives for QEOP

A fourth planning application for an asphalt production plant was withdrawn by the applicant in February 2018, before the application could be refused, on similar grounds as above, by the LLDC.

Appeals against the refusals of permission for the three batching and block manufacturing applications have been submitted to the Planning Inspectorate.

A public inquiry to consider these appeals has been scheduled to commence in February 2019 and to last for approximately 4 days. A decision from the appointed Planning Inspector on the appeals would be expected in the Spring of 2019.

### **LLDC Position**

#### **3 Key Points**

- 1) We continue to engage with Network Rail (the freeholders) and DB Cargo (the long leaseholders) to try and resolve this situation. A newly formed joint venture for the three concrete related industries has been formed, and they will bring forward a new masterplan application for the site, which could then enable the appeals to be withdrawn.
- 2) This new masterplan planning application is being scheduled for submission to the LLDC in the Autumn and we await the proposals.
- 3) There may be a way forward that meets the needs of the applicant and reduces the impact on local residents and the Park. We are awaiting the revised proposals and will take a view once we've seen them and the local community have had the opportunity to view them and have their say.

### **Intelligence**

Mayor John Biggs and Mayor Robin Wales both objected to the original applications would result in substantial increases in noise and disturbance, dust and air pollution. Tower

Hamlets referred to the work to improve air quality in the borough and sees the proposals as exacerbating the situation created by the intense use of the A12.

Ahead of the original planning decisions committee a chang.org petition entitled *“Stop the plan to build 4 concrete & asphalt factories next to Olympic Park”* received 12,491 signatures.

### **Background**

Bow East is designated Strategic Industrial Land in both the London Plan and the Legacy Corporation’s Local Plan, adopted in 2015.

The masterplan which will include the revised proposals is expected to include similar aggregate related industries as the previous submissions. However, it will have:

- a reduced land-take within the Bow East site
- be set within contained structures
- provide for an improved visual setting

The masterplan will also identify the infrastructure improvements necessary to support the consolidation of activity adjoining an improved freight rail facility. This would enable the managed release of land for future redevelopment.

CONFIDENTIAL DRAFT

---

Hi Peter, you should be aware of the email below and that he has copied in the Mayor and Mayor's of LBN and LBTH. [REDACTED] is a persistent writer and has absorbed a lot of time of various officers at LBTH Environmental Health (EHO) and the Environment Agency (the latter two are the appropriate authorities to take any required enforcement action) and my team. My team has brokered meetings with all parties including DB Cargo as leaseholders/operators of the site in order to see what can be controlled given that the site benefits from permitted development rights to operate unrestricted (in planning terms) as a protected rail freight facility. We have made clear to [REDACTED] on numerous occasions that whilst sympathetic to his distress, the Corporation cannot control activity at the site and I understand that previously both LBTH and the EA have concluded that DB are operating within the restrictions imposed via other relevant noise and environmental legislation. Because we have received this complaint we will be informing colleagues at LBTH EHO as they would need to investigate whether there is a statutory nuisance generated by the light pollution he complains about. I'm not sure entirely what action, if any, that LBTH will take as I understand that the EHO senior management has instructed its staff not to deal with previous complaints from [REDACTED]. DB hasn't been great at responding or managing the situation regarding [REDACTED] complaints. They rarely respond to him, nor indeed my team when we raise issues with them. I don't know whether that's something you may be able to ask senior NR staff to raise with DB. At least the latter could be polite enough to respond to [REDACTED] complaints.

Happy to discuss

Anthony

**Subject:** Bow Goods Yard - New Development

Dear all,

Will someone please bring this site under control.

Since 4am this morning my family and I have been awake due to Bow Goods Yard. You'll be aware that we have, for the past 2.5 years, had issues with Bow Goods starting work at this hour and due to the incompetence of the Tower Hamlets noise team this has miraculously not been seen to cause a nuisance even though it's caused many residents ongoing pain and suffering.

Today, the arrogance of those operating this site has taken a new turn. They have not only started operating

again at 4am, but now they have started operating a huge JCB Digger at the closest proximity to residents houses. There is, literally, no added value or benefit to what they are using it for right now.

It's a diesel powered vechile so it's engines 'chugs' and those chugs vibrate through our property.

This is an outrage. The chairman of National Rail is the boss of everyone presiding under the jurisdiction of the LLDC. Can you please drop him and email and let him know this cannot continue. One of the biggest killers in the UK is lack of sleep - being woken up at 4am almost every morning isn't healthy for any residents here!!!

PLEASE SORT THIS OUT AND STOP THIS FROM HAPPENING!!!!

█ / Anthony, I've already sent for the second time an image of them shining flood lights into our properties. The people using this site are making decisions without any concern for residents. Their license clearly states they can use this site so long as they don't cause a nuisance to residents. Any legal expert can recognize the obvious ongoing nuisance these 'people' are purposefully being.

Regards,

█

**Subject:** RE: Developing issues

Hi All,

Anthony is right that previously complaints made to us (by Tower Hamlets' residents) re dust and noise of activities at Bow East were redirected to Tower Hamlets EHO's and the Environment Agency. However following these complaints, as the site is in LB Newham, both Newham and Tower Hamlets EHO's worked with the Environment Agency and in liaison with PPDT to investigate the matter.

There are Environmental Permits issued by the Environment Agency which cover the DB Cargo and S Walsh operations at the Bow East Goods Yard site. If anyone has concerns about operations on the site affecting them (such as dust coming from the site) the Environment Agency requests that any incident is reported via their incident line - **0800 80 70 60** as they are responsible for ensuring compliance with those permits.

Reporting to the relevant Borough EHO (where the complainant is experiencing the pollution) at the same time is also advised so that a coordinated approach can be undertaken to statutory nuisance.

The LB Newham EHO dealing with pollution matters is [REDACTED], who can be contacted via email [\[REDACTED\]@newham.gov.uk](#) and [REDACTED] should be copied in [\[REDACTED\]@newham.gov.uk](#)

**Subject:** Re: Developing issues

Hi Paul, to date complaints have been made to LBTH EHO about the operations at Bow East, as the residents who have made complaints live in LBTH, even though the site is in LBN. I've no problem with you contacting LBN, but would suggest that they contact LBTH colleagues given the extensive history. My understanding is that it is the Environment Agency who would be the enforcing authority for any breach of the current licence to operate at the site, but LBN EHO would look at statutory nuisance impacts on its residents. Hilary can advise further.

On a general note for Peter and Ed, whilst there are a number of issues related to the upcoming planning application, it would of course provide the mechanism, if approved, to impose restrictions and conditions on the operations at the site, including limiting the extent of and providing cover for the open storage of aggregates, as well as dust and other environmental controls. Application is scheduled for submission in July.

**Subject:** RE: Developing issues

Thanks Ed

In relation to Bow Goods Yard:

- **Proposed planning application:** Catherine Smyth and I went to the Bobby Moore Academy a couple of weeks ago to update [REDACTED] (Head Teacher) and [REDACTED] (DRET Lead) on the situation regarding the proposed planning application. I am in regular contact with them. We have a good relationship with them on this issue and they understand our position as an organisation and our role as a planning authority. I will help them as they consider their response to the planning application once it arrives.
- **Current situation:** Use of the site has increased massively over the past couple of months and it is generating far more dust than I can remember. I wonder whether there are environmental enforcement measures that LB Newham could take. I'm happy to write to [REDACTED] about this (taking the line that we, like she, are worried about this particularly in relation to the school - so what can we do together?) – unless you all think it would be better coming from Peter or Lyn.

Best wishes

Paul

**Subject:** Developing issues

Dear Peter and EMT

I just wanted to update you mainly on a developing issue with reputational issues but also to highlight a few things in the cuttings today.

Extracted - not relevant to the request

Extracted - not relevant to the request

The other issue which is developing is the campaign against the Bow Goods Yard. Bobby Moore Academy has been active on Twitter over the last few days pointing out the large mound of building material, the number of lorries and the impact on air quality. These have been liked by several people including the Mayor of Newham. Meanwhile, in the last few days, a petition has been started to campaign against the plans to come back to planning with new proposals for concrete batching on the site. The link to the petition is below.

It is not brilliantly co-ordinated from an opposition point of view because on one hand there are the complaints on what is happening right now and on the other is a campaign against the proposals which the developer is currently in pre application consultation about. The added issue the petition has put in to the mix is Peter's role with both Network Rail and LLDC.

From a comms point of view we are getting together a very simple one pager on what our role is in this and some background and explanation of what a designated site is. We can then consider placing that somewhere online and directing questions towards it. I wanted to let you know things were bubbling up again in case you are asked when out and about. I am not in EMT next week but it might be worth a discussion.

Extracted - not relevant to the request

Link to the petition here and when we have finalised the one pager we will send it around.

**Subject:** New application to build a concrete plant at the Olympic Park, Climate Emergency and Mayor of London clean air strategy.

Dear Sadiq Khan, Mayor of London,

Cc: Mayor Rokhsana Fiaz (Newham), Mayor John Biggs (Tower Hamlets), Councillor Rachel Blake (Bow East and Deputy Mayor and Cabinet Member for Regeneration and Air Quality), Council █ (Bow East), Councillor Amina Ali (Bow East), Rushanara Ali MP, █, The Guardian

home address is █

and personal ph █

It has been brought to our attention that there is going to be a new application to build a concrete plant at the Bow East Goods Yard (Pudding Mill Lane, London, E15 2P Newham), land owned by Network Rail right next to the Queen Elizabeth Olympic Park, and across from a newly built school, the Bobby Moore Academy, which my daughter also attends. According to our information, the new application is due in June and it will be fronted by Bates Aggregates.

We are aware that the planning permission applications for the construction of concrete factory plants on the same site as previous applications submitted over the past three years are not referable to the Mayor as it remains a matter for the London Legacy Development Corporation (LLDC) as the local planning authority. Those previous applications were either rejected or withdrawn in the past due to serious concerns about the social and environmental impact of such heavy industry facilities at the heart of the biggest regeneration area in London. However, and this is the reason for this present letter, it seems this time there might also be a potential conflict of interest, as we have been informed that Peter Hendy, the Chair of the LLDC, is also the Chair of Network Rail, owners of the Bow East Goods Yard. Would the Mayor not think this presents a conflict of interest?

Moreover, the LLDC actually have the power to place a compulsory purchase order over Bow East Goods Yard but we are being told the LLDC does not have the money or man power to buy it back. Although we cannot be sure of Peter Hendy's influence over this decision-making process, we are certain that this decision does not make sense. Given the housing shortages in London and that the site in question is right at the heart of the biggest regeneration area in Europe, we would assume there might be developers willing to purchase and masterplan the site.

The potential impact on human health for the surrounding communities in Newham and Tower Hamlets in general and on the children and teachers from the Bobby Moore Academy in particular, and other risks associated to the increase in traffic of lorries coming in and out the site, has already been appropriately documented in the submissions against previous similar applications. But we would also like to add to the above concerns that the application for the construction of this plant comes at a time when the parliament of the United Kingdom has declared a national Climate Emergency. Also, the United Nations Special Rapporteur on human rights and hazardous substances and wastes, Baskut Tuncak, noted in a report published in January 2017 that "air pollution plagues the UK" and has a disproportionate impact on children: (<http://www.ohchr.org/EN/NewsEvents/Pages/DisplayNews.aspx?NewsID=21131&LangID=E>)

As public authorities, both the Greater London Authority and the LLDC are bound by the Human Rights Act 1998, which incorporates certain provisions of the European Convention on Human Rights into domestic law. In particular, the Courts have held that Article 8 of the Convention, which protects the right to home and family life, includes a right not to be subjected to environmental pollution that affects individuals' well-being and prevents them from enjoying their homes in such a way as to affect their private and family life adversely. Additionally, Article 1 of Protocol 1 to the Convention protects the right to peaceful enjoyment of possessions, including property. It is reasonably foreseeable that the rights of a very large number of local residents, including school children, would be severely adversely affected by the construction of a concrete plant.

As our Mayor, I hope that you will be doing everything in your power to prevent the construction of this plant, which would be hugely detrimental to all our lives. This is surely not what was meant by the Olympic legacy!

I look forward to hearing from you at your earliest convenience.

ly,

---

Dear Peter,

Please see attached our draft response to correspondence that has been received via the Mayor's office re Bow East Goods Yard, this is from the same person who started the online petition. There is a second letter from a local parent raising similar concerns (they live in a nearby block and their child attends Bobby Moore Academy) who will receive the same response. I have asked the Mayor's correspondence team to send us back a final copy of the response before it goes out, it will probably go out from a member of the correspondence unit.

Myself and Mark Robinson have some time in your diary for a call on Tuesday morning to discuss this further.

If you have any questions please let me know.

Best wishes,

## Draft Response:

Thank you for your email about Bow East Good Yard and for raising your concerns with me about this site.

Before addressing the proposed development at this site it is important to clarify Sir Peter Hendy's role. As chair of both LLDC and Network Rail he has declared his conflict of interest to both organisations and is taking no part in decision making regarding this site at either LLDC or Network Rail. It should also be noted that DB Cargo, who have a lease on the site, are responsible for the day to day operation of the site. LLDC's role is as the local planning authority and it has a statutory duty to determine any planning applications made to them. Sir Peter has no role on LLDC's Planning Decisions Committee, which takes decisions on applications for significant development within the Legacy Corporation's area.

As you know the previous applications for concrete batching on this site were refused unanimously by LLDC's Planning Decision Committee on 26 September 2017. The applicants challenged this decision and appealed. The case was to be heard at Public Inquiry chaired by an independent Planning Inspector in February 2019 and LLDC was preparing to defend the decision of the Planning Decisions Committee. However, the applicant withdrew its appeal.

I understand that the applicants have formed a joint venture and have recently undertaken some community consultation on revised proposals and an application is expected. Like any other application made to the LLDC this will be considered against planning policy and local people will be able to have their say on any proposals through the statutory planning consultation, including any controls which could reasonably be placed on operations at the site – should they continue - as part of the planning consideration.

There are currently no plans for the LLDC to acquire this site, but I understand the Legacy Corporation are in conversation with Network Rail about the long term future use of both the Bow East and Bow West sites.

The rail-related uses have been in use historically and are not covered by any planning permission. The use of the site for storage of materials transported by rail cannot be controlled by the Legacy Corporation as the Local Planning Authority. For instance, the amount of vehicle trips to the site or the heights of the materials stored on site cannot be controlled by the LLDC. Operations at the site are controlled by the terms of a permit which has been issued by the Environment Agency (EA).

Any environmental concerns about the current operation of the site are a matter for the Environment Agency and the London Boroughs of Newham and Tower Hamlets. If anyone has concerns about operations on the site affecting them (such as dust coming from the site) the Environment Agency requests that any incident is reported via their incident line - 0800 80 70 60 as they are responsible for ensuring compliance with Environmental Permits which cover operations on the site. Reporting to the relevant Borough Environmental Health Office (where the complainant is experiencing the pollution) at the same time is also advised so that a coordinated approach can be undertaken to investigating statutory nuisance. For complaints in LB Newham the contact is: [pollution.inquiry@newham.gov.uk](mailto:pollution.inquiry@newham.gov.uk) For complaints in LB Tower hamlets the contact is: [Environmental.Protection@towerhamlets.gov.uk](mailto:Environmental.Protection@towerhamlets.gov.uk).

Yours,

**Original Email:**

Dear Sadiq,

I represent a group of more than 100 residents and was one of 6 people responsible for obtaining more than 12,000 signatures against the proposed concrete and asphalt factory on Bow Goods Yard.

Since many thousands of people made it quite clear that SIL use on Bow Goods Yard was not compatible with an increasingly residential area the Chairman of the LLDC has presided over making this site increasingly industrial, increasingly toxic and increasingly noisy for residents.

Can I ask, how do these photos fit in with your very public image of 'clean air for Londoners' campaign or do we over in Hackney Wick have less human rights than those closer to your office.

That this is happening under Sir Peter Hendy demonstrates the clear conflict of interest that he has. Since being appointed as chair of the LLDC we have seen more than 50 HGV's use that site as a permanent place to park and S Walsh and Son are using it for non-rail related activities which is against the terms of the license. Residents are becoming increasingly angry and incensed by the way this site is being used. We are being made to pay for a botched agreement that was made without any future proofing of what that decision might have on your wider master plan for this area.

You have elections coming up and I can assure you that more than 12,000 people will be making a judgement on your ability to lead based on the way you deal with this. Peter Hendy needs to be asked to step aside and you need to make a commitment, in public, or come and meet residents to tell them how you feel when you see images like the ones I have sent to you in this email. My understanding is that one of the leading representatives of Bates Aggregates, the company about to head the application of the Bow East debacle, has conceded to a senior representative their surprise that 'residents haven't jumped on Peter Hendy's conflict of interest' with more vigor. From the side lines it would seem that residents are being laughed at and the appointment should be revoked. It is clearly a disgrace that you even allowed this to happen and one which suggests you hold the concerns of more than 12,000 with clear disdain.

It is 2019 and residents on this side of Hackney Wick are breathing in dust in their homes whilst some 25 meters from the site is a school - The Bobby Moore Academy. I met them yesterday, and I saw a video made by one of the teachers whereby she had to drive on the other side of the road to pass a traffic jam of more than 15 HGV lorries all waiting to get onto the site. This was the same route that children take to get to school or nursery. The HGV's were parked partly over the same zebra crossing these children and their parents would have to cross to have any chance of being safe. Can you imagine the level of fumes their lungs have to suck up as they make their way to go and learn. What is being presided over on this site could be considered to be tantamount to corporate man slaughter. No one is giving a damn about the people in this area even though they are fully aware about the long term effects this use is having on residents.

I asked the applicants of Bow East, to their faces if they would like to send their children to the Bobby Moore Academy and one of the concrete owners smugly smiled to my face to tell me his children had already gone through school. Clearly his answer was no.

We understand an application is coming back in June. We also understand that there is still an opportunity for this site to be placed under a compulsory purchase order; however, the LLDC have suggested they do not have the money or the resources to save the children in this part of East London from a future of clean air - which is an utter disgrace and clearly incompatible to your policy. The idea there aren't enough people or funds available to purchase the land are not factual and certainly not a decision that Peter Hendy should be presiding over so we ask you to reconsider without his input.

We have spoken to developers who would love to purchase this land. They would be able to help you hit your new home numbers and to boost the economy using the site for a mixture of residential and industrial usage. It's would create 1000's of new jobs and improve the environment significantly rather as opposed to a concrete factory that would create 30 or so jobs and kill the environment in this area. The fact people are presiding over it when it makes zero sense whatsoever is concerning. It's almost like Brexit. Why can't people change their minds on the fact this is not to be used for SIL? Practice what you preach.

Mr Kahn - you need to sort this mess out and show clear direction and leadership immediately to the more than 12,000 people that are angry and incensed about this. You need to give power to Newham Council and Tower Hamlets so they can protect their residents from this and you need to shut this site down. SIL land on this side of Hackney Wick is slowly killing people.

Take some bloody ownership of it.

Kind regards,  
[REDACTED]

## 2. Housing and Planning

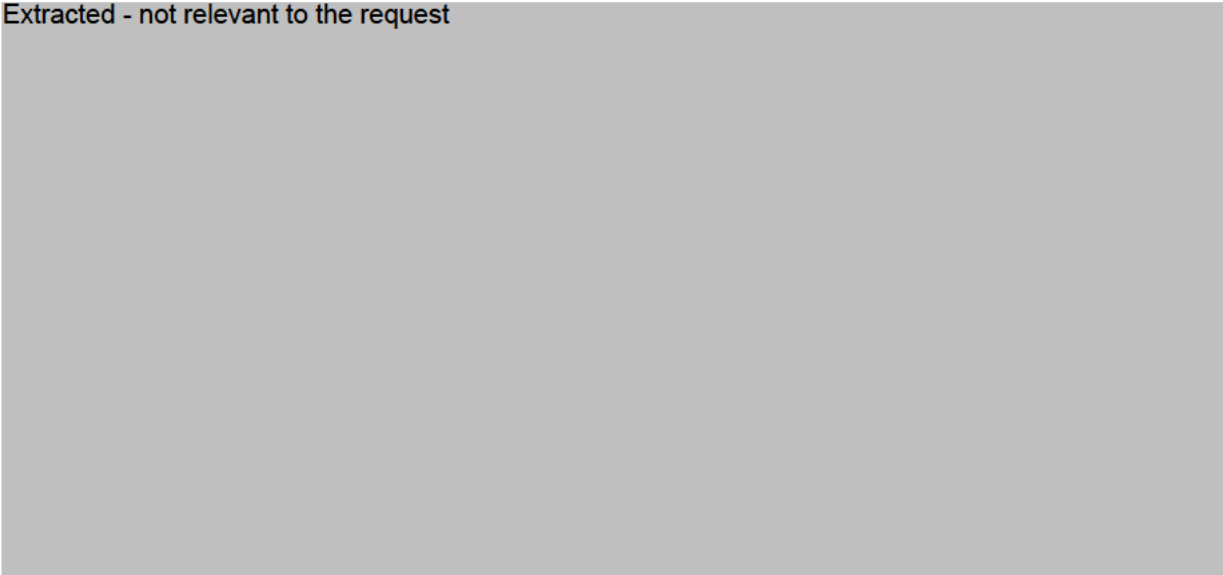

Gerry and Rosanna will provide an update:

Extracted - not relevant to the request

- Bow East – Two issues to flag: 1) Use of the site has increased significantly over recent months (large mound of building material visible, increased number of lorries generating a lot of dust); nearby school (Bobby Moore Academy) has been tweeting about this. 2) A revised planning application for concrete batching is expected for submission in July and a petition has been started to campaign against this. LLDC is preparing a one pager on its role and background.

---

Dear Peter,

Please see attached draft factsheet, we are just awaiting final sign off from planning.

Mark

May 2019

## Bow East Goods Yard

### Location and site ownership

- Bow East Goods Yard is located to the south west of Queen Elizabeth Olympic Park, but is not part of the Park itself.
- The site is owned by Network Rail who lease land within the site to DB Cargo, a logistics and freight company.
- The site contains a Network Rail owned rail terminal, used for the transfer of aggregates and spoil.
- The rail freight operator DB Cargo currently use land within the site for the open storage of materials transported by rail by DB Cargo such as aggregates – i.e. materials used in construction across London.
- The site is within the London Borough of Newham but is near to parts of the London Borough of Tower Hamlets (Fish Island).

### Current use and planning status

- The site is owned by Network Rail and other than temporary uses during the Olympics it has always been in industrial/rail-related use.
- Operations at the site are controlled by the terms of a permit which has been issued by the Environment Agency – see the Environmental Issues section below.
- Because of the long-term use of the site for rail-related uses and lack of any historic planning consent, there are no planning conditions that can be enforced on the site by the London Legacy Development Corporation (LLDC) as the Local Planning Authority. (e.g. the amount of vehicle trips to the site or the heights of the materials stored on site cannot be controlled by the LLDC.)

### LLDC's Role

- LLDC is the local planning authority for the area around and including Queen Elizabeth Olympic Park. This means that any planning application made in that area must be submitted to the LLDC. This includes Bow East Goods Yard.
- As the local planning authority LLDC has a statutory duty to determine all planning applications submitted to it.
- The LLDC's Planning Decisions Committee makes decisions on all significant planning applications. The Committee is independent and includes representatives of all four local boroughs.

- The site is designated as a “a safeguarded rail head” and identified as a “Strategic Industrial Location” in the LLDC’s Local Plan and the Mayor of London’s London Plan, which together set out the planning policy that is applied when making decisions on planning applications.
- Sir Peter Hendy, as chair of both LLDC and Network Rail, has declared his conflict of interest to both organisations and is taking no part in decision making regarding this site at either LLDC or Network Rail. Further, at LLDC he has no role in the planning decision making process. Decisions on all applications are independently considered by the Planning Decisions Committee. His interest as chair of both LLDC and Network Rail has been declared to both organisations.

### **Past and future applications**

- A number of planning applications have been made for concrete batching on the Bow East Good Yards site in recent years.
- On 26 September 2017, the LLDC’s Planning Decisions Committee voted unanimously to reject three applications to build concrete production and batching facilities at Bow East Goods Yard.
- The applicant challenged this decision and appealed. The case was to be heard at Public Inquiry chaired by an independent Planning Inspector in February 2019 and LLDC was preparing to defend the decision of the Planning Decisions Committee. However, the applicant withdrew its appeal.
- Some of the applicants have now formed a Joint Venture (Bow East Concrete) in order to develop an amended proposal for development at the site. The Joint Venture has undertaken some community engagement on its proposals during autumn 2018 and a planning application is expected to be submitted to LLDC in July 2019. Should the Joint Venture make a new planning application this will be considered by LLDC as the Local Planning Authority against national, London and Local planning policy. Statutory planning consultations will take place which will allow interested parties to have their say on the application.

### **Environmental issues**

Environmental issues from the current use of the site are a matter for the Environment Agency and the London Boroughs of Newham and Tower Hamlets environmental health departments.

If you have any concerns about operations on the site (e.g. such as dust coming from the site) the Environment Agency requests that any incident is reported via their incident line - 0800 80 70 60 as they are responsible for ensuring compliance with Environmental Permits which cover operations on the site.

Where someone considers that they are experiencing pollution from the site they are also advised to contact their relevant Borough Environmental Health service at the same time so that a coordinated approach can be undertaken to investigating any statutory nuisance.

For complaints from Newham the contact is:

[pollution.inquiry@newham.gov.uk](mailto:pollution.inquiry@newham.gov.uk)

For complaints from Tower hamlets the contact is:  
[Environmental.Protection@towerhamlets.gov.uk](mailto:Environmental.Protection@towerhamlets.gov.uk).

### Additional information

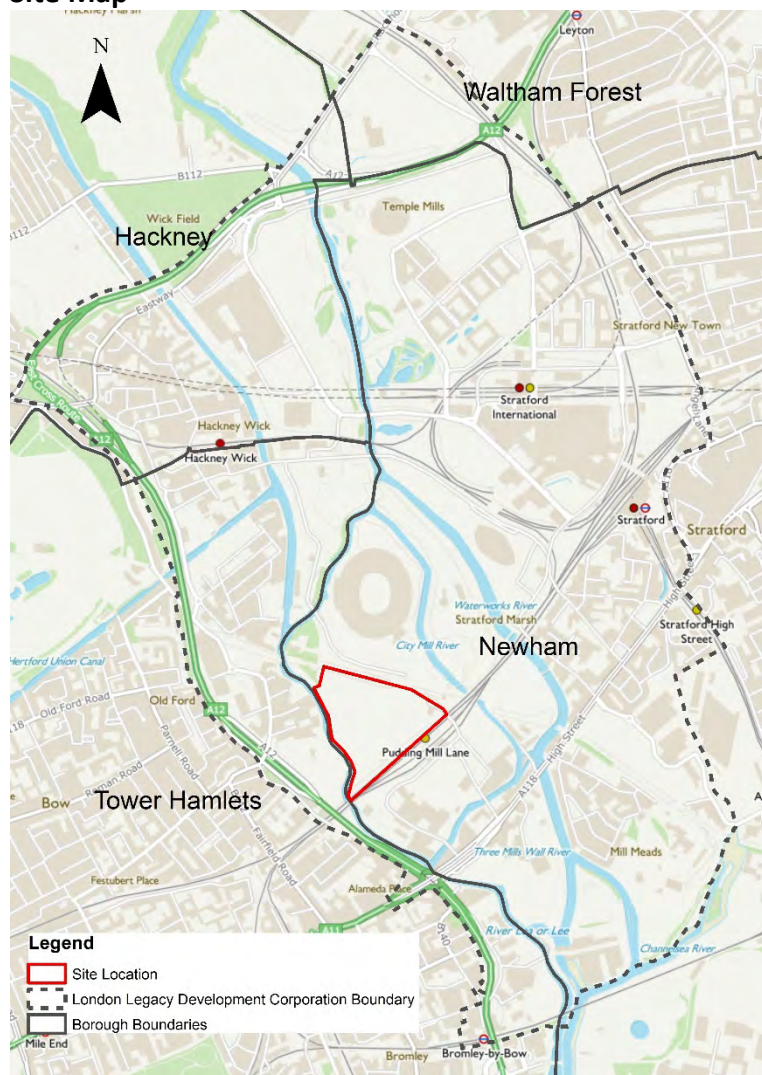

During the London 2012 Olympic and Paralympic Games, the site was leased to LOCOG as the warm up track for athletes. It then reverted to its original use as rail-related storage after 2012.

We understand the sensitivity and depth of feeling about proposals for possible developments on this site but the LLDC has to undertake its statutory role as a planning authority.

The potential impacts of any planning application proposal for the site would be thoroughly assessed by LLDC as the Local Planning Authority, and reported to the Planning Decisions Committee who would make an independent decision.

LLDC's Planning Decisions Committee includes councillors from all the local boroughs including two from the London Borough of Newham and one from the London Borough of Tower Hamlets.

	<p><i>c. Bow East</i></p>

The Mayor and LLDC have received complaints (and a petition) from local residents about heavy lorry movements and the health impact of dust from Bow East goods yard. They are also concerned about a revised planning application that is due to come forward for a concrete works on the site, which is on Network Rail-owned land. LLDC and Network Rail are bringing together factual information on the site to inform their communications messages. LLDC has produced a one-page briefing which it will circulate to the GLA. The issue has also been escalated to Jules.

**Action:**

- LLDC to circulate Bow East briefing to the GLA.

## **Bow East Goods Yard**

### **Key Points**

- Bow East Goods Yard is designated as a “safeguarded rail head” and identified as a “Strategic Industrial Location” in the Mayor’s London Plan. This allows operators to transfer construction aggregates by rail instead of road, which is good for London.
- Because the site has historically been used for rail-related uses, there are no planning conditions which can be enforced on the site by LLDC as the Local Planning Authority.
- Notwithstanding this, we understand the concerns that local people have about the use of the site and have taken a number of steps to address these.
- We have written to the site owners raising our concerns about the dust and nuisance coming from the current use of the site and asking them to make improvements. In response Network Rail has sought to ensure that DB Cargo, the leaseholder, improves the management of dust and stockpiles of aggregates at the site. A management forum of operators and regulatory authorities is being established to oversee improvements to site management. We have also highlighted this issue to LB Newham who are responsible for environmental health enforcement for this site.

- We expect a planning application to be submitted in October by a JV of construction companies for a concrete batching plant at the site. When the new planning application is made, we will thoroughly assess any impacts and ensure that people have the opportunity to comment on the proposals before any decision is made by our independent Planning Decisions Committee.

**Q. Your chair is conflicted on this matter as chair of both Network Rail and LLDC, shouldn't he stand aside?**

- Sir Peter Hendy, as chair of both LLDC and Network Rail, has declared his conflict of interest to both organisations and is taking no part in decision making regarding this site at either LLDC or Network Rail.
- Further, at LLDC he has no role in the planning decision making process. Decisions on all applications are independently considered by the Planning Decisions Committee.

## Bow East Goods Yard

### Key Points

- Bow East Goods Yard is designated as a “safeguarded rail head” and identified as a “Strategic Industrial Location” in the Mayor’s London Plan. This allows operators to transfer construction aggregates by rail instead of road, which is good for London.
- Because the site has historically been used for rail-related uses, there are no planning conditions which can be enforced on the site by LLDC as the Local Planning Authority.
- Notwithstanding this, we understand the concerns that local people have about the use of the site and have taken a number of steps to address these.
- Although the site is owned by Network Rail, it is not directly controlled as it is on a long lease.
- We have written to the site owners raising our concerns about the dust and nuisance coming from the current use of the site and asking them to make improvements. In response Network Rail has sought to ensure that DB Cargo, the leaseholder, improves the management of dust and stockpiles of aggregates at the site.
- A management forum of operators and regulatory authorities is being established to oversee improvements to site management. We have also highlighted this issue to LB Newham who are responsible for environmental health enforcement for this site.
- If pushed: The management forum is being set up by Network Rail. It hasn’t met yet (Anthony Hollingsworth is currently chasing NR on this).
- We expect a planning application to be submitted in October by a JV of construction companies for a concrete batching plant at the site. When the new planning application is made, we will thoroughly assess any impacts and ensure that people have the opportunity to comment on the proposals before any decision is made by our independent Planning Decisions Committee.

**Q. Why was a school built next door to this site in the first place?**

- Various environmental impacts from adjoining uses – including both Bow East and the London Stadium – were assessed at the time and found to be acceptable.
- This site was favoured by the David Ross Education Trust and there were no reasonable planning grounds for refusal.
- The issue isn't whether the school is in the wrong place, but how DB Cargo and users of the site can improve the environmental management.

**Q. Your chair is conflicted on this matter as chair of both Network Rail and LLDC, shouldn't he stand aside?**

- Sir Peter Hendy, as chair of both LLDC and Network Rail, has declared his conflict of interest to both organisations and is taking no part in decision making regarding this site at either LLDC or Network Rail.
- Further, at LLDC he has no role in the planning decision making process. Decisions on all applications are independently considered by the Planning Decisions Committee.

## Briefing note

**To:** Sir Peter Hendy  
**cc:** Lyn Garner, Gerry Murphy  
**From:** Rachel Massey  
**Date:** 13 September 2019  
**Subject:** **16 September LLDC Board**

### 1) Meeting timing and arrangements

- The Board meeting will begin at 2pm and will take place at Transport for London offices in Auditorium 2-3, 5 Endeavour Square, Stratford, London E20 1JN.
- There will be a separate desk at the TfL ground floor reception for the LLDC meeting, and you will need to sign in and be escorted up to the meeting room.

### 2) Attendees and apologies

Extracted - not relevant to the request

### 3) Briefing notes on agenda items

Extracted - not relevant to the request

Extracted - not relevant to the request

14.36 **5. Matters arising and action list**

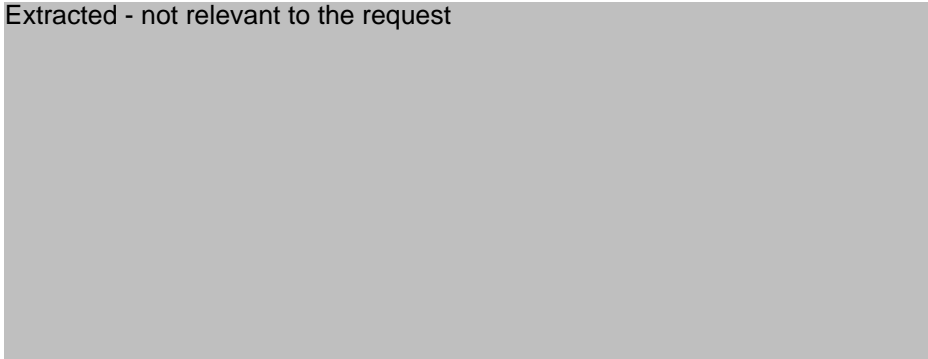

*For noting*

*Allocated 5 minutes*

**Pages 11-14**

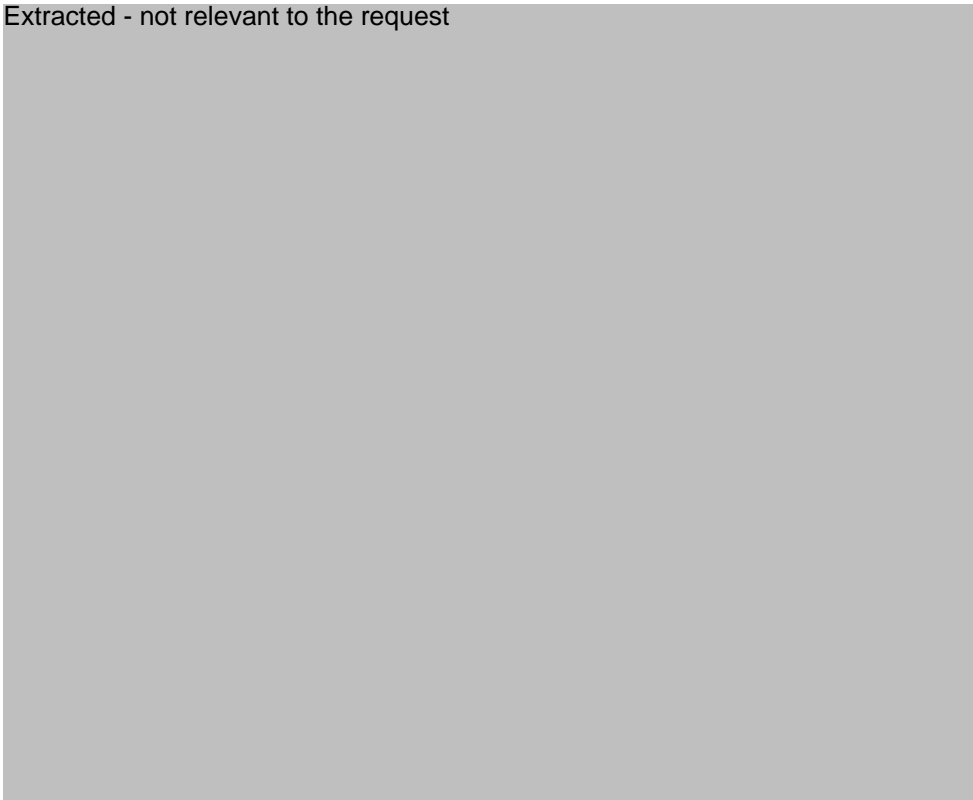

- Item 5 covers the matters arising and action list.

Extracted - not relevant to the request

- **Action 6.7 Chief Executive's** – Update the Board on further developments in relation to the Bow East site. *Board to be updated following submission of planning application.*

**Subject:** RE: GLA-LLDC FPL Group - 24 September District heating background information

Dear all,

Please find attached a further updated agenda pack – the version circulated earlier this afternoon omitted the second page of the correspondence below.

Apologies for the multiple emails on this.

c) Bow East

*[Sir Peter Hendy did not participate in this item due to his position as Chair of Network Rail]*

The operator of the goods yard had put in place some management measures to reduce the impact of heavy goods traffic on residents. A revised planning application for a concrete batching plant on the site was due in the autumn, with a planning determination expected before the end of the year. LLDC continued to receive petitions against the proposed development.

---

Dear all,

Following a recent freedom of information request, I have come across comments in the attached e-mails, which demonstrate why residents, local businesses, schools, Sadiq and local councils should have grave concerns about the application process for the concrete factory that is expected to be submitted in October. There is evidence, just within this small collection of 3 e-mails, to suggest the operators and the LLDC recognise there are real dangers from having this plant operating in this area; whilst perhaps most concerning is that in an e-mail between Network Rail and DB Cargo it suggests that the LLDC are being held to ransom by Network Rail; which does indeed support their earlier threatening letters that they would not support the regeneration plans of the wider area should they not be allowed to build a concrete factory. It would seem that whilst the LLDC would like to continue the redevelopment of the area network rail are working as hard as they can to prevent this from happening. I quote 'they (LLDC) are dead keen to realise alternative development and are slowly (and grudgingly) beginning to accept that some freight has to stay in Bow East **as the price for this.**

**The price for this is not redevelopment, the price for this is paid for by the health of children and residents. The fact they are not able to recognise this should be a reason in itself for the LLDC to place a compulsory purchase order on the site in question.**

@Sadiq you wrote to me a few weeks ago and stated quite clearly that you would intervene in referable planning applications that would result in unacceptable air quality and there is clear evidence from just these few emails to suggest there is a current and much broader problem here, which the current landowners and their tenants have tried to suppress without any thorough investigations over the last three years of their operations. The damage needs to be thoroughly understood especially given that they have disclosed in one of these e-mails, that there are cumulative dust impacts in this area. I would suggest it would only be right, in light of their admission of cumulative dust impacts, to force this application to be subjected to a cumulative impact assessment, especially as its close to a school. Indeed, it would not be unreasonable consider that as environmental laws and legal precedents are set in the coming months and years ahead then a failure to demand a cumulative impact assessment, in full knowledge that cumulative impacts could be to the detriment of the health of those children, may well leave the authorities wide open for retrospective legal action against them. It cannot be suggested for a moment that consideration to this point is now not within the public domain now this e-mail has been

sent.

I'd also refer you to the other points raised in your letter, that being, the rights of residents and school children of Bobby Moore Academy are no less than elsewhere. I'll refer you; therefore, to look at a tweet that I sent to @lyngarnerlldc at 12.22am on the 21 September. Can you let me know how many residents in Chelsea, Kensington, Highgate etc. are having to suffer from the noise and vibrations that you can see in that video. Perhaps most concerning, the activities of DB Cargo fall out of scope of the concrete factory so this unloading and loading of materials will be in addition to the concrete factory. This fact has not been made clear in their public consultations and recent leaflets sent to residents. The applicants have been purposefully misleading in their consultations and they are visually misrepresenting the reality of the impact of such a factory given that in their artistic impressions, the mounds of materials are no higher than the size of a plant pot.

The concerns I have with the content of these e-mails are set out individually by date below:

E-mail dated 3 July e-mail

- The e-mail is between DB Cargo and it would seem, the LLDC
- The e-mail demonstrates an internal belief by DB Cargo that they take their responsibilities to residents seriously and believe they are a part of the community. That they unload trains from midnight onwards whilst being fully aware of the impact this has on local residents is contrary to such statements. The fact that I have never met a single member of the community that wants them anywhere near them really demonstrates a failure to understand reality; which should be a concern for everyone.
- We have written to DB Cargo over many years and told them about the problem we have with dust and noise; however, they have chosen to ignore us and have allegedly reneged on the terms of their tenancy agreements (from what we have been told) by not conducting thorough investigations into residents complaints to them
- I've attached the train times from 2016 the end of 2017 which show the times the trains have come into Bow Goods Yard. Please can you tell me if you think operating at the times recorded are, in anyway, times that any strategic industrial operator should operate when the terms of their licence state they should be mindful of their operations on their neighbours?
- Given that DB Cargo will not acknowledge to residents that there is a problem is concerning as this e-mail would suggest quite the contrary.
- Its acknowledgement is counter to the responses that we have had from the LLDC, LBTH's, EA etc. which would suggest that residents concerns have been 'swept under the carpet'. Behind the scenes this e-mail proves there is an acknowledgment that

the dust in the area is impactful.

- Indeed, just by the fact Lyn Garner has had to send a letter reminding the operators that they have responsibility to control dust, could be considered an acknowledgement that this site is having a negative impact on residents - in which case - why has it been allowed to carry on? How have the operators been able to continue doing this and why have the Environment Agency not enforced the concerns of Lyn in the same way when they have received the same photographs and the same videos?
- All the e-mails in context lead us to believe that there is a belief that the dust is problematic; therefore, why have the EA, who are able to close the site immediately until there are processes and controls in place to stop it, been able to carry on for 3 years unchallenged? If residents do receive funding to challenge this in the courts, please could you let us know why this would not be considered as a breach of their duties?
- DB Cargo make a case that there is dust suppression in place; however, a tractor driving around spraying water on the floor of the huge stockpiles, some 5 stories in height, is not suppressing dust. It merely makes the floor wet. There is plenty of evidence been sent across to show that the dust is actually coming from these stockpiles, not the floor
- The operators may well suggest they now have a water gun on top of the stockpiles right now; however, that in itself is also an admission that the dust problem has come from the stockpiles - rather than just the floor. Turning it on once a day for a few minutes and never during the weekend also makes it a pretty pointless exercise.
- The language they use - they routinely carry out dust suppression. As you'll see from the time lapse video overseeing the site over many months, it simply has not been the case.
- The fact that they have stated they want to put an air quality management system in place 'at some point in the future' also suggests the operators have dismissed the claims of residents without running a thorough investigation. It is our understanding that if there is a complaint against noise or dust they should investigate the complaint fully. In this e-mail, they state that they will put air quality management in place 'to help us better understand and address any issues this may identify'. This is clear evidence they have not fulfilled their obligations as tenants because if a complaint is registered it is their duty to understand and address the issues as soon as possible. This statement admits they still do not know what the issues are, yet they are allowed to continue their operations until the effects are understood. For sure, if there are issues found, I will take retrospective legal action.
- The e-mail also states 'we believe there are several potential sources of dust in the area (not just on land occupied by DB Cargo and its customers)'. This is an admission that there is a cumulative impact of dust in this area. You will recall the efforts being made by the same applicants, first time round, to not apply to build a larger concrete factory, for the purpose of avoiding having to do a cumulative impact study. Indeed, it is the belief of some that this is what is happening this time round given that they would not commit, at a public consultation, that they would not

resubmit the tarmac factory application that was mysteriously pulled at the last minute. This is clearly going to have a damaging impact on school children and i'm utterly ashamed that people in public office would even put residents, schools and local businesses through this nonsense once again.

- The nonsense of them pulling together a local management committee, like that would somehow make things okay, is also embarrassing. There are no examples in three years of them showing any concern for local residents.
- Furthermore, the running of this area is already a complete shambles because no one has ultimate accountability for it. Between the LLDC, LBTH's, Newham and the EA there is nothing but inefficiency and friction. Adding yet more layers of complexity will achieve nothing other than making those responsible for the dust and noise more unaccountable than ever before. Indeed, if it is proposed that London Concrete will be part of this, please find attached the thread on Bow Quarter' Facebook page from last week, which demonstrates both London Concrete and Aggregate Industries could also not care less about their impact on residents.
- The e-mail mentions taking the LLDC on a tour of the societal benefits the existing operations already deliver. Please can you circulate the societal benefits that have been suggested.

#### E-mail dated 17 June, 2019

- This is an e-mail from Network Rail to Lyn Garner
- Again, there is clear confirmation in this e-mail that the operations on this site are not good enough as they state 'we share your concerns around some of the current operations'. Please can Network Rail confirm what their concerns are and please can we see e-mails that confirm what those concerns are?
- They have never acknowledged the impact they have on residents and whilst being fully aware of the impacts their response has been to intensify their activity.
- That they is an awareness of this site not operating to the standards that should be expected is bad enough, but more concerning is that since this e-mail was sent the operators have been allowed to continue their delivery of more and more materials without any controls or changes being made. Surely Sadiq and those in office believe something as serious as this is a complete dereliction of responsibility and this alone should prevent any such operators from ever being allowed to run a concrete factory next door to a school.
- I am also concerned that in this e-mail there is an acknowledgement of how unsafe the roads will be around the school but rather than resolve that matter now, my interpretation of the e-mail is that Network Rail are trying to pin the responsibility of resolving those safety concerns on the highways authority, rather than coming up with a solution themselves. If this has been interpreted correctly, given that this public consultation has suggested to residents that the applicants have considered the highest levels of safety throughout, please can it be explained to residents and the school (all in copy) as to why they are seemingly trying to abscond their

responsibilities for safety on the most important aspect of the application - protecting school children.

- Perhaps most concerning, I have attached a tweet from Sir Peter Hendy, who flatly denied that Network Rail were making plans for a concrete factory being built next to a school; however, here we have Network Rail e-mailing the LLDC and looking forward to discussing 'progress on the wider redevelopment opportunity' - which is, a concrete factory; whilst simultaneously, e-mails between Network Rail and DB Cargo suggest that his organisation have been holding the LLDC to ransom on their redevelopment plans. This is a major concern for me and many other residents in the area.

E-mail dated 28 June, 2019 (found on the same PDF as the e-mail dated 3 July)

- Perhaps the most damning e-mail of them all as it confirms that there is a recognition that this site is a danger to residents. It clearly states that there are 'safety concerns around HGV's and pedestrians mixing'. If this is well known, why is the madness of this application happening once again? It should be thrown out because clearly, there is no safe way of managing this site. **The traffic has no where else to go!!**
- Another damning aspect of this e-mail is reference to the fact that even though it would seem that behind the scenes there is recognition that this site is operationally inefficient, negatively impactful and unsafe the applicants would like to control the dust, not for the purposes of improving safety **but because the Brett operational teams see it as potentially damaging to the JV planning application.** It is a damning statement that demonstrates even the applicants themselves recognise they have not shown enough competency to be considered as capable custodians of a concrete factory. It can most definitely be interpreted as an admission of failure; exacerbated by the fact complaints have been made about the safety standards that their drivers have been setting as they bomb up and down Wick Lane.
- **Another major concern is that the LLDC has, apparently, though grudgingly, begun to accept that this site should be used for freight purposes as the trade off for redeveloping the area. My understanding is that within planning, there has to be impartiality to an application specifically and there should not be any deals being made behind the scenes.**
- **Furthermore; that someone would grudgingly accept something, demonstrates there is an element of doubt in the minds of the LLDC if network rail are to be believed. This could easily be interpreted that the LLDC are fully aware that approving such an application will create problems, in which case, there should be a compulsory purchase order placed on the site. If Network Rail are trying to create a situation whereby sensible redevelopment of an area of land, next door to a school, should come at a price, then they are demonstrating that they are still completely at odds with the regeneration agenda of the area and supporting their earlier made comments that they would not support the regeneration**

**agenda of the LLDC if they were not allowed to build a concrete factory. Furthermore; given they do seem to be carrying out a threat which is in the public domain, then Peter Hendy should not be anywhere near the LLDC whilst there is such conflict in place. Whether you would like us to believe he is part of the planning or not - it is completely absurd.**

- Given that DB Cargo have suggested they will put an air quality management system in place at some point in time 'in the future' as a means of determining any issues they might find - I have to ask the question - how on earth can the LLDC accept such uses on the site when there is no evidence, at all, of the impact this site is currently having on the children they encouraged to this area. Again, this is completely absurd, more so given that time is being spent behind the scenes, making deals, without any evidence.
- I would like to remind you that in the original concrete factory application an argument against building a smaller concrete factory was dismissed by network rail under the premise it would have been uneconomical. Please can they confirm what's changed? Have the LLDC asked the question and why would there be support for a business to be set up next to a school when it loses them money. Any organisation running businesses that are uneconomical would be incapable of spending money on innovation one would assume? If residents complain and the operators do not have the money to make necessary changes to their operations what happens then?

The other concern I have is that my request under the FOI was:

*Regarding their obligations under the Ninth Schedule. Please can you send me all correspondence between DB Cargo and Network Rail which relates to the complaints against them from residents whose lives they have negatively been impacting for the past 3 years.*

That I have only been sent 3 e-mails suggests that either there is information being suppressed or the 100's of complaints that have been raised by residents to DB Cargo, about the noise and dust, have simply not been investigated. If they have been investigated I would like all the correspondence between DB Cargo, Network Rail, S Walsh and Son and the LLDC, relating to the running of this site to be released.

When there are such obvious flaws in this process how can anyone at the LLDC be expected to approve this, even grudgingly. Indeed, what is the commercial incentive of redeveloping the greenway? How is it a good trade off a concrete factory for a piece of land that absolutely no-one in their right minds would want to use. Ultimately, I can imagine behind the scenes that the consideration is being given to the redevelopment of the greenway because it would be less obvious way of building a wall that would ultimately do the job of hiding the ridiculous operations being proposed to take place behind it. It certainly would hide the site from the school children's playground and the 10,000 students that you are encouraging to the area - stealth pollution if you like; however, as

has been admitted in the e-mails, there is no solution to the 1000's of HGV's coming to the area, a facade in front of the site will not reduce the emissions, or the dust, or the noise and it certainly would negatively contribute to the cumulative dust problem that has also been admitted.

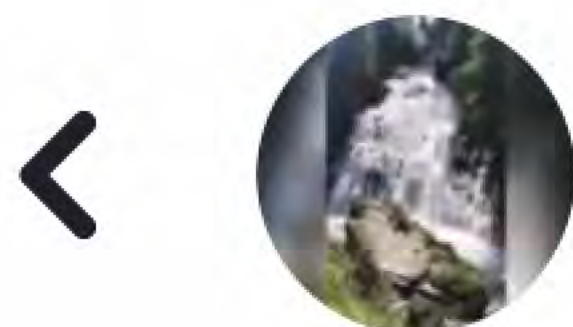

Stop putting people through this nonsense. I can even imagine this is quite stressful for members of the LLDC who behind the scenes think this is as mad as all the rest of us. There is no place; at all, for operators like this when this area was designated for regeneration. Furthermore; there is no place for an operation like this, especially when the landowners and operators recognise it is unsafe. This area is becoming increasingly residential; therefore, by default, it would make this area increasingly unsafe over time.

It simply isn't good enough.

Kind regards,

A solid black rectangular box used to redact the sender's name.

[REDACTED], thanks for your time earlier today.

As discussed, it would be useful if you could communicate the following points in your meeting with LLDC tomorrow which explains some of the controls we currently have in place to control dust from those areas of the site we have responsibility for.

**Managing stocks:**

- We are working closely with our customers to minimise stockpiles on the site – in the last three weeks alone some 87,000 tonnes of material has been removed from Bow East Goods Yard, which has required 24/7 working on occasions.

**Dust suppression:**

- 'Damping down' is routinely carried out on the site and arrangements are being made for additional 'rain guns' to be installed to minimise even further the potential for dust emanating from these activities.
- Road sweepers regularly operate on the site, with additional sweeps being made of the adjacent road network, even though this is not our responsibility.

**Air quality monitoring:**

- In the very near future we will complete work on the installation of new air quality monitoring on the site to help us to better understand and address any issues this may identify.

I hope this demonstrates that we do take our environmental responsibilities very seriously and are mindful of our impact on the community, of which we are a part.

As I mentioned in our conversation, we believe there are several potential sources of dust in the area (not just on land occupied by DB and its customers) and we would be very supportive of the creation of a local management committee which would bring together all relevant parties operating in the area.

I suggest that as a starter-for-ten we organise a site visit for LLDC, so we can show them exactly what happens at Bow East Goods Yard and the surrounding area, the environmental and societal benefits existing operations already deliver (in terms alleviating road congestion/air pollution etc) and all parties' future plans.

I look forward to speaking to you again after your meeting to progress matters.

Best wishes

Hello Folks

[REDACTED] / [REDACTED] – sorry for the radio silence, been meaning to raise with [REDACTED] in the first instance to understand who might be involved at the DBC end. Available to join a con-call if that is helpful, suggest [REDACTED] and [REDACTED] liaise internally first.

[REDACTED] – thanks for offering to speak to [REDACTED] on Monday to understand background and where things have got to:

- 1<sup>st</sup> & 2<sup>nd</sup> attachments - Letter & photo of dust
- 3<sup>rd</sup> attachment – David Biggs response. NB: the dust issues have been raised direct by [REDACTED] @ Brett with the operational teams as it is potentially damaging to the JV planning application, hence comment around Management Committee. You'll also see we are really trying to push LLDC to take on the safety concerns around HGVs and pedestrians mixing rather than just dump this on the railway
- David B is meeting Lynn Garner of LLDC @ 9.30am next Thursday (4 July) at their Stratford offices not too far from site. I'll be there supporting along with [REDACTED] from our Development team & possibly [REDACTED] with his planning hat. They are dead keen to realise alternative development and are slowly (and grudgingly) beginning to accept that some freight has to stay in Bow East as the price for this

There might be an option for DBC to join the meet on the 4<sup>th</sup>? Or perhaps easier to have the NR / LLDC meet first and then a follow-up session which covers site management and wider issues. One for your side to determine.

Thanks

[REDACTED] – Freight

**Subject:** FW: Bow East Goods Yard  
**Attachments:** 93 NR and DB Cargo.pdf; 93 NR and DB Cargo photo.jpg

Lyn

First of all, sorry for the slow response but be assured my team have been looking into the matter as soon as we received your letter.

Thank you for your email as we share your concerns around some of the current operations. The point around apparent dust from the site has already been raised with DB Cargo which we will be following up shortly. We will also be exploring the idea of setting up a Management Committee with DBC and the various sub-tenants and how this might interact with key neighbours, particularly the school.

Separately but connected and so you are aware, my team have recently raised an issue with your team around highways in the locality and in zebra crossing on Marshgate Lane, linking Pudding Mill Station to the DRET school, which is seen as a cause for concern. Perhaps the highways authority can resolve in the short term rather than wait for future proposals to help solve the issues which will only intensify as the school becomes busier.

I look forward to us meeting on the 4 July to discuss progress on the wider redevelopment opportunity.

Kind regards

David

---

Dear all,

Following a recent freedom of information request, I have come across comments in the attached e-mails, which demonstrate why residents, local businesses, schools, Sadiq and local councils should have grave concerns about the application process for the concrete factory that is expected to be submitted in October. There is evidence, just within this small collection of 3 e-mails, to suggest the operators and the LLDC recognise there are real dangers from having this plant operating in this area; whilst perhaps most concerning is that in an e-mail between Network Rail and DB Cargo it suggests that the LLDC are being held to ransom by Network Rail; which does indeed support their earlier threatening letters that they would not support the regeneration plans of the wider area should they not be allowed to build a concrete factory. It would seem that whilst the LLDC would like to continue the redevelopment of the area network rail are working as hard as they can to prevent this from happening. I quote 'they (LLDC) are dead keen to realise alternative development and are slowly (and grudgingly) beginning to accept that some freight has to stay in Bow East **as the price for this.**

**The price for this is not redevelopment, the price for this is paid for by the health of children and residents. The fact they are not able to recognise this should be a reason in itself for the LLDC to place a compulsory purchase order on the site in question.**

@Sadiq you wrote to me a few weeks ago and stated quite clearly that you would intervene in referable planning applications that would result in unacceptable air quality and there is clear evidence from just these few emails to suggest there is a current and much broader problem here, which the current landowners and their tenants have tried to suppress without any thorough investigations over the last three years of their operations. The damage needs to be thoroughly understood especially given that they have disclosed in one of these e-mails, that there are cumulative dust impacts in this area. I would suggest it would only be right, in light of their admission of cumulative dust impacts, to force this application to be subjected to a cumulative impact assessment, especially as its close to a school. Indeed, it would not be unreasonable consider that as environmental laws and legal precedents are set in the coming months and years ahead then a failure to demand a cumulative impact assessment, in full knowledge that cumulative impacts could be to the detriment of the health of those children, may well leave the authorities wide open for retrospective legal action against them. It cannot be suggested for a moment that consideration to this point is now not within the public domain now this e-mail has been

sent.

I'd also refer you to the other points raised in your letter, that being, the rights of residents and school children of Bobby Moore Academy are no less than elsewhere. I'll refer you; therefore, to look at a tweet that I sent to @lyngarnerlldc at 12.22am on the 21 September. Can you let me know how many residents in Chelsea, Kensington, Highgate etc. are having to suffer from the noise and vibrations that you can see in that video. Perhaps most concerning, the activities of DB Cargo fall out of scope of the concrete factory so this unloading and loading of materials will be in addition to the concrete factory. This fact has not been made clear in their public consultations and recent leaflets sent to residents. The applicants have been purposefully misleading in their consultations and they are visually misrepresenting the reality of the impact of such a factory given that in their artistic impressions, the mounds of materials are no higher than the size of a plant pot.

The concerns I have with the content of these e-mails are set out individually by date below:

E-mail dated 3 July e-mail

- The e-mail is between DB Cargo and it would seem, the LLDC
- The e-mail demonstrates an internal belief by DB Cargo that they take their responsibilities to residents seriously and believe they are a part of the community. That they unload trains from midnight onwards whilst being fully aware of the impact this has on local residents is contrary to such statements. The fact that I have never met a single member of the community that wants them anywhere near them really demonstrates a failure to understand reality; which should be a concern for everyone.
- We have written to DB Cargo over many years and told them about the problem we have with dust and noise; however, they have chosen to ignore us and have allegedly reneged on the terms of their tenancy agreements (from what we have been told) by not conducting thorough investigations into residents complaints to them
- I've attached the train times from 2016 the end of 2017 which show the times the trains have come into Bow Goods Yard. Please can you tell me if you think operating at the times recorded are, in anyway, times that any strategic industrial operator should operate when the terms of their licence state they should be mindful of their operations on their neighbours?
- Given that DB Cargo will not acknowledge to residents that there is a problem is concerning as this e-mail would suggest quite the contrary.
- Its acknowledgement is counter to the responses that we have had from the LLDC, LBTH's, EA etc. which would suggest that residents concerns have been 'swept under the carpet'. Behind the scenes this e-mail proves there is an acknowledgment that

the dust in the area is impactful.

- Indeed, just by the fact Lyn Garner has had to send a letter reminding the operators that they have responsibility to control dust, could be considered an acknowledgement that this site is having a negative impact on residents - in which case - why has it been allowed to carry on? How have the operators been able to continue doing this and why have the Environment Agency not enforced the concerns of Lyn in the same way when they have received the same photographs and the same videos?
- All the e-mails in context lead us to believe that there is a belief that the dust is problematic; therefore, why have the EA, who are able to close the site immediately until there are processes and controls in place to stop it, been able to carry on for 3 years unchallenged? If residents do receive funding to challenge this in the courts, please could you let us know why this would not be considered as a breach of their duties?
- DB Cargo make a case that there is dust suppression in place; however, a tractor driving around spraying water on the floor of the huge stockpiles, some 5 stories in height, is not suppressing dust. It merely makes the floor wet. There is plenty of evidence been sent across to show that the dust is actually coming from these stockpiles, not the floor
- The operators may well suggest they now have a water gun on top of the stockpiles right now; however, that in itself is also an admission that the dust problem has come from the stockpiles - rather than just the floor. Turning it on once a day for a few minutes and never during the weekend also makes it a pretty pointless exercise.
- The language they use - they routinely carry out dust suppression. As you'll see from the time lapse video overseeing the site over many months, it simply has not been the case.
- The fact that they have stated they want to put an air quality management system in place 'at some point in the future' also suggests the operators have dismissed the claims of residents without running a thorough investigation. It is our understanding that if there is a complaint against noise or dust they should investigate the complaint fully. In this e-mail, they state that they will put air quality management in place 'to help us better understand and address any issues this may identify'. This is clear evidence they have not fulfilled their obligations as tenants because if a complaint is registered it is their duty to understand and address the issues as soon as possible. This statement admits they still do not know what the issues are, yet they are allowed to continue their operations until the effects are understood. For sure, if there are issues found, I will take retrospective legal action.
- The e-mail also states 'we believe there are several potential sources of dust in the area (not just on land occupied by DB Cargo and its customers)'. This is an admission that there is a cumulative impact of dust in this area. You will recall the efforts being made by the same applicants, first time round, to not apply to build a larger concrete factory, for the purpose of avoiding having to do a cumulative impact study. Indeed, it is the belief of some that this is what is happening this time round given that they would not commit, at a public consultation, that they would not

resubmit the tarmac factory application that was mysteriously pulled at the last minute. This is clearly going to have a damaging impact on school children and i'm utterly ashamed that people in public office would even put residents, schools and local businesses through this nonsense once again.

- The nonsense of them pulling together a local management committee, like that would somehow make things okay, is also embarrassing. There are no examples in three years of them showing any concern for local residents.
- Furthermore, the running of this area is already a complete shambles because no one has ultimate accountability for it. Between the LLDC, LBTH's, Newham and the EA there is nothing but inefficiency and friction. Adding yet more layers of complexity will achieve nothing other than making those responsible for the dust and noise more unaccountable than ever before. Indeed, if it is proposed that London Concrete will be part of this, please find attached the thread on Bow Quarter' Facebook page from last week, which demonstrates both London Concrete and Aggregate Industries could also not care less about their impact on residents.
- The e-mail mentions taking the LLDC on a tour of the societal benefits the existing operations already deliver. Please can you circulate the societal benefits that have been suggested.

#### E-mail dated 17 June, 2019

- This is an e-mail from Network Rail to Lyn Garner
- Again, there is clear confirmation in this e-mail that the operations on this site are not good enough as they state 'we share your concerns around some of the current operations'. Please can Network Rail confirm what their concerns are and please can we see e-mails that confirm what those concerns are?
- They have never acknowledged the impact they have on residents and whilst being fully aware of the impacts their response has been to intensify their activity.
- That they is an awareness of this site not operating to the standards that should be expected is bad enough, but more concerning is that since this e-mail was sent the operators have been allowed to continue their delivery of more and more materials without any controls or changes being made. Surely Sadiq and those in office believe something as serious as this is a complete dereliction of responsibility and this alone should prevent any such operators from ever being allowed to run a concrete factory next door to a school.
- I am also concerned that in this e-mail there is an acknowledgement of how unsafe the roads will be around the school but rather than resolve that matter now, my interpretation of the e-mail is that Network Rail are trying to pin the responsibility of resolving those safety concerns on the highways authority, rather than coming up with a solution themselves. If this has been interpreted correctly, given that this public consultation has suggested to residents that the applicants have considered the highest levels of safety throughout, please can it be explained to residents and the school (all in copy) as to why they are seemingly trying to abscond their

responsibilities for safety on the most important aspect of the application - protecting school children.

- Perhaps most concerning, I have attached a tweet from Sir Peter Hendy, who flatly denied that Network Rail were making plans for a concrete factory being built next to a school; however, here we have Network Rail e-mailing the LLDC and looking forward to discussing 'progress on the wider redevelopment opportunity' - which is, a concrete factory; whilst simultaneously, e-mails between Network Rail and DB Cargo suggest that his organisation have been holding the LLDC to ransom on their redevelopment plans. This is a major concern for me and many other residents in the area.

E-mail dated 28 June, 2019 (found on the same PDF as the e-mail dated 3 July)

- Perhaps the most damning e-mail of them all as it confirms that there is a recognition that this site is a danger to residents. It clearly states that there are 'safety concerns around HGV's and pedestrians mixing'. If this is well known, why is the madness of this application happening once again? It should be thrown out because clearly, there is no safe way of managing this site. **The traffic has no where else to go!!**
- Another damning aspect of this e-mail is reference to the fact that even though it would seem that behind the scenes there is recognition that this site is operationally inefficient, negatively impactful and unsafe the applicants would like to control the dust, not for the purposes of improving safety **but because the Brett operational teams see it as potentially damaging to the JV planning application.** It is a damning statement that demonstrates even the applicants themselves recognise they have not shown enough competency to be considered as capable custodians of a concrete factory. It can most definitely be interpreted as an admission of failure; exacerbated by the fact complaints have been made about the safety standards that their drivers have been setting as they bomb up and down Wick Lane.
- **Another major concern is that the LLDC has, apparently, though grudgingly, begun to accept that this site should be used for freight purposes as the trade off for redeveloping the area. My understanding is that within planning, there has to be impartiality to an application specifically and there should not be any deals being made behind the scenes.**
- **Furthermore; that someone would grudgingly accept something, demonstrates there is an element of doubt in the minds of the LLDC if network rail are to be believed. This could easily be interpreted that the LLDC are fully aware that approving such an application will create problems, in which case, there should be a compulsory purchase order placed on the site. If Network Rail are trying to create a situation whereby sensible redevelopment of an area of land, next door to a school, should come at a price, then they are demonstrating that they are still completely at odds with the regeneration agenda of the area and supporting their earlier made comments that they would not support the regeneration**

**agenda of the LLDC if they were not allowed to build a concrete factory. Furthermore; given they do seem to be carrying out a threat which is in the public domain, then Peter Hendy should not be anywhere near the LLDC whilst there is such conflict in place. Whether you would like us to believe he is part of the planning or not - it is completely absurd.**

- Given that DB Cargo have suggested they will put an air quality management system in place at some point in time 'in the future' as a means of determining any issues they might find - I have to ask the question - how on earth can the LLDC accept such uses on the site when there is no evidence, at all, of the impact this site is currently having on the children they encouraged to this area. Again, this is completely absurd, more so given that time is being spent behind the scenes, making deals, without any evidence.
- I would like to remind you that in the original concrete factory application an argument against building a smaller concrete factory was dismissed by network rail under the premise it would have been uneconomical. Please can they confirm what's changed? Have the LLDC asked the question and why would there be support for a business to be set up next to a school when it loses them money. Any organisation running businesses that are uneconomical would be incapable of spending money on innovation one would assume? If residents complain and the operators do not have the money to make necessary changes to their operations what happens then?

The other concern I have is that my request under the FOI was:

*Regarding their obligations under the Ninth Schedule. Please can you send me all correspondence between DB Cargo and Network Rail which relates to the complaints against them from residents whose lives they have negatively been impacting for the past 3 years.*

That I have only been sent 3 e-mails suggests that either there is information being suppressed or the 100's of complaints that have been raised by residents to DB Cargo, about the noise and dust, have simply not been investigated. If they have been investigated I would like all the correspondence between DB Cargo, Network Rail, S Walsh and Son and the LLDC, relating to the running of this site to be released.

When there are such obvious flaws in this process how can anyone at the LLDC be expected to approve this, even grudgingly. Indeed, what is the commercial incentive of redeveloping the greenway? How is it a good trade off a concrete factory for a piece of land that absolutely no-one in their right minds would want to use. Ultimately, I can imagine behind the scenes that the consideration is being given to the redevelopment of the greenway because it would be less obvious way of building a wall that would ultimately do the job of hiding the ridiculous operations being proposed to take place behind it. It certainly would hide the site from the school children's playground and the 10,000 students that you are encouraging to the area - stealth pollution if you like; however, as

has been admitted in the e-mails, there is no solution to the 1000's of HGV's coming to the area, a facade in front of the site will not reduce the emissions, or the dust, or the noise and it certainly would negatively contribute to the cumulative dust problem that has also been admitted.

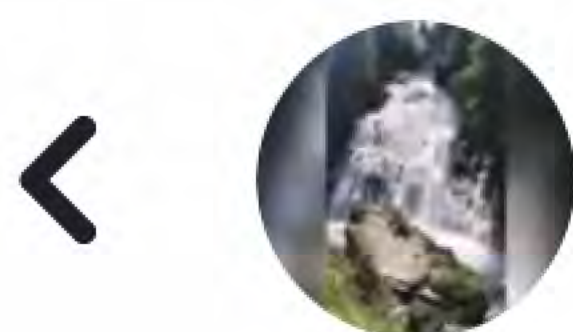

Stop putting people through this nonsense. I can even imagine this is quite stressful for members of the LLDC who behind the scenes think this is as mad as all the rest of us. There is no place; at all, for operators like this when this area was designated for regeneration. Furthermore; there is no place for an operation like this, especially when the landowners and operators recognise it is unsafe. This area is becoming increasingly residential; therefore, by default, it would make this area increasingly unsafe over time.

It simply isn't good enough.

Kind regards,

**Bow Quarter Appreciation Society**

They are making a royal racket there now. It sounds like they are dropping skips from a great height, plus a background whirring. I can hear it through closed double glazing too.

I phoned London Cement, not knowing it wasn't them. He said straight away that it was Aggregate Industries, but I didn't have a number to moan at them.

[REDACTED], thanks for your time earlier today.

As discussed, it would be useful if you could communicate the following points in your meeting with LLDC tomorrow which explains some of the controls we currently have in place to control dust from those areas of the site we have responsibility for.

**Managing stocks:**

- We are working closely with our customers to minimise stockpiles on the site – in the last three weeks alone some 87,000 tonnes of material has been removed from Bow East Goods Yard, which has required 24/7 working on occasions.

**Dust suppression:**

- 'Damping down' is routinely carried out on the site and arrangements are being made for additional 'rain guns' to be installed to minimise even further the potential for dust emanating from these activities.
- Road sweepers regularly operate on the site, with additional sweeps being made of the adjacent road network, even though this is not our responsibility.

**Air quality monitoring:**

- In the very near future we will complete work on the installation of new air quality monitoring on the site to help us to better understand and address any issues this may identify.

I hope this demonstrates that we do take our environmental responsibilities very seriously and are mindful of our impact on the community, of which we are a part.

As I mentioned in our conversation, we believe there are several potential sources of dust in the area (not just on land occupied by DB and its customers) and we would be very supportive of the creation of a local management committee which would bring together all relevant parties operating in the area.

I suggest that as a starter-for-ten we organise a site visit for LLDC, so we can show them exactly what happens at Bow East Goods Yard and the surrounding area, the environmental and societal benefits existing operations already deliver (in terms alleviating road congestion/air pollution etc) and all parties' future plans.

I look forward to speaking to you again after your meeting to progress matters.

Best wishes

Hello Folks

[REDACTED] / [REDACTED] – sorry for the radio silence, been meaning to raise with [REDACTED] in the first instance to understand who might be involved at the DBC end. Available to join a con-call if that is helpful, suggest [REDACTED] and [REDACTED] liaise internally first.

[REDACTED] – thanks for offering to speak to [REDACTED] on Monday to understand background and where things have got to:

- 1<sup>st</sup> & 2<sup>nd</sup> attachments - Letter & photo of dust
- 3<sup>rd</sup> attachment – David Biggs response. NB: the dust issues have been raised direct by [REDACTED] @ Brett with the operational teams as it is potentially damaging to the JV planning application, hence comment around Management Committee. You'll also see we are really trying to push LLDC to take on the safety concerns around HGVs and pedestrians mixing rather than just dump this on the railway
- David B is meeting Lynn Garner of LLDC @ 9.30am next Thursday (4 July) at their Stratford offices not too far from site. I'll be there supporting along with [REDACTED] from our Development team & possibly [REDACTED] with his planning hat. They are dead keen to realise alternative development and are slowly (and grudgingly) beginning to accept that some freight has to stay in Bow East as the price for this

There might be an option for DBC to join the meet on the 4<sup>th</sup>? Or perhaps easier to have the NR / LLDC meet first and then a follow-up session which covers site management and wider issues. One for your side to determine.

Thanks

Lyn

First of all, sorry for the slow response but be assured my team have been looking into the matter as soon as we received your letter.

Thank you for your email as we share your concerns around some of the current operations. The point around apparent dust from the site has already been raised with DB Cargo which we will be following up shortly. We will also be exploring the idea of setting up a Management Committee with DBC and the various sub-tenants and how this might interact with key neighbours, particularly the school.

Separately but connected and so you are aware, my team have recently raised an issue with your team around highways in the locality and in zebra crossing on Marshgate Lane, linking Pudding Mill Station to the DRET school, which is seen as a cause for concern. Perhaps the highways authority can resolve in the short term rather than wait for future proposals to help solve the issues which will only intensify as the school becomes busier.

I look forward to us meeting on the 4 July to discuss progress on the wider redevelopment opportunity.

Kind regards

David
