### History Trees

- 9 trees inspected, including 2 outside park boundaries. 3 trees in better condition; 3 showed no change; 3 in worse condition. 6 are in the lowest three IDP categories.
- The dawn redwood had almost no foliage in 2022. Recommend felling now given high-target area and weight of ring on drying wood.
- Turkey oak doing better although still has a Moderately High IDP. Continued watering and fertilising recommended.
- Silver -leafed lime is not thriving; soil conditioning recommended. Further action may be needed following 2023 survey.
